

TORNADOES TAKE DEATH TOLL IN 3 STATES

SIX KNOWN DEAD; FIFTY ARE INJURED, NEAR DRUMWRIGHT

Two are Dead in Colorado—Much Property
Damage is Done in Nebraska—Oil Fields
Are Swept in Oklahoma—Boy Scouts
Are Missing in Snow Storm in Colorado

(By The Associated Press)
DRUMWRIGHT, Okla., Nov. 4.—Four persons are known to have been killed, fifty were injured, some seriously and many are missing as the result of a tornado which struck in the oil fields just southeast of here tonight.

After striking southeast of Drumright the tornado rose and descended near Mannford, about 25 miles northeast of here. An oil worker was killed on an oil lease near Mannford.

Several automobiles filled with physicians departed at once for the storm area from here and Oilton. The total darkness which covered the oil field as a result of the destruction of electric lighting equipment is hindering the work of rescue parties. More than 30 houses of oil workers and oil rigs and pumping machinery strewn about for miles.

AVIATORS ARE DOWN IN THEIR NON STOP FLIGHT

After Breaking Records Forced to Land
at Indianapolis

(By The Associated Press)
Dayton, Ohio, Nov. 4.—After thundering their way through four-fifths of the distance across the United States from San Diego to Indianapolis, thru storms and calm, darkness and light, aboard the monoplane T-2, Lieut. John A. MacReady and Oakley G. Kelly relaxed tonight after their hazardous trip and related incidents of their record-breaking non stop flight of 2,060 miles.

The aviators were forced to land their ship at Indianapolis at 9:47 o'clock this morning after they had exhausted their water supply owing to a broken line. They borrowed a plane and flew to Dayton early this afternoon. Had they traveled approximately 700 miles further they would have succeeded in their attempt to cross the continent without stopping. MacReady and Kelly are not entirely disappointed for their flight demonstrated that a coast-to-coast flight is possible, they declared.

Bad weather hindered progress of the flight in early stages and for more than 11 hours the aviators were forced to battle their way thru a thunderstorm, low clouds and heavy cross winds. For a time they said, they held little hope that they would be able to get across New Mexico because weather conditions were so bad. Darkness overtook them in New Mexico and the first ray of sunshine was sighted at St. Louis this morning MacReady said.

No Ill Effects Suffered
Neither pilot suffered any ill effects from the trip but both were greatly fatigued. Evidence of their calm nerves was shown in their ability to take an entirely different type of plane at Indianapolis and fly it to Dayton where an official report was to Major T. H. Bain, commandant of McCook Field where both flyers are regularly stationed.

"We are feeling fine," MacReady said tonight, "and I would be willing to take another shot at it tomorrow if we were ordered by the department."
Neither pilot considers the fact that they broke a world's record as much of a feat but regarded valuable information gleaned from the trip for the future of aviation as foremost.

STATES FORMER

MINISTER KILLED
PARIS, Nov. 5.—L'Humanite states this morning that it is positive Enver Pasha, former Turkish minister of war was killed August 4 when contingents of the red army surrounded Mohammedans insurgents near Balaolik. The insurgents were annihilated, according to the newspaper and among the bodies was found that of Enver Pasha in a British uniform the pockets of which contained letters to his wife and son.

The known dead: Joe Jennings, son of Mr. and Mrs. Joe Jennings, Wilfred Dobson, 14 years old, son of Frank Dobson.

The Jennings family was living on the Roxana lease. No trace of their house has been found. Their bodies were picked up a quarter of a mile away.

A heavy downpour set in immediately after the tornado passed and is continuing, adding to the difficulty of bringing in the injured.

Two Dead in Colorado.
Denver, Colo., Nov. 4.—Two persons dead, two missing, several injured and property damage of more than \$50,000 was the toll reported tonight in the wake of a series of tornadoes and thunderstorms which gripped south-east Colorado today.

The damaged area was the center of a sleet and snow storm which hit the Rock mountain states last night and reached the height of its severity late today. Blizzarding conditions prevailed in most states tonight and heavy snow fall with lower temperatures were reported almost generally. Wire communication south and west of Denver was demoralized tonight, telephone and telegraph companies reporting most of their lines out of commission. Definite information was not available concerning the extent of tornadoes reported to have struck near Rocky Ford, Ordway and Sugar City and other isolated Colorado points.

Two lives were lost at Sugar City, Colo., in a tornado which swept near that city early today, it was reported. Another tornado struck that place this afternoon and caused property damage amounting to several thousands of dollars, according to reports. No injuries were reported.

Boy Scouts Missing.
Pueblo, Colo., Nov. 4.—Eight boy scouts who under the direction of their scout leader left Pueblo this morning for a hike are missing tonight. Nothing has been heard of them since the storm broke about 2:30 o'clock. They are believed to be safe in a farm house.

A blinding snow storm swept the region into which the boys went.

Damage in Nebraska.
Lexington, Neb., Nov. 4.—A tornado struck Lexington late this evening cutting a wide swath thru the southern part of the town. No injuries are reported. Union Pacific trains were held up and many barns were demolished.

MAY REOPEN SCHOOLS

AT WEST FRANKFORT
West Frankfort, Ill., Nov. 4.—Possibility of reopening public schools in this district which have been closed for two months as the result of a walkout by 91 teachers seemed brighter today following a decision of Circuit Judge Kerin upholding the election of the present school board. The teachers walked out because the district was without school funds to pay them.

Judge Kerin's decision paves the way for a bond issue election to raise the necessary funds. It was explained about 3,800 children were enrolled in the schools when they closed.

BOTH SIDES

PREDICT VICTORY
St. Louis, Mo., Nov. 4.—Predictions of sweeping victories were made in final pre-election statements issued by the respective chairmen of the Republican and Democrat committees today.

LESSONS LEARNED BY AVIATORS WILL BE OF GREAT VALUE

Statement Issued by Air Service Headquarters
Last Night

(By The Associated Press)
WASHINGTON, Nov. 4.—Lessons learned by Lieutenants Oakley Kelly and John MacReady in their two world record flights in the army monoplane, T-2 will be turned to advantage by army air service officials here with confidence that a successful non-stop flight across the continent can be made in the near future. A statement issued by the air service headquarters said the flight of the two pilots from San Diego, Calif., to Fort Benjamin Harrison, Ind., a distance of nearly 2,100 miles, had set a distance record, the longest previous continuous flight having been that of Captain John Aleock and Sir A. W. Brown, British pilots, when they covered 1,934 on their trans-Atlantic flight in 1919.

The two American pilots on Oct. 5, established a world's endurance record of 35 hours, 18 minutes and 30 seconds, flying over San Diego.

It was believed by air officials here that Lieutenants Kelly and MacReady who have successfully accomplished the flight from California in their motor equipment had been in the most condition as on their previous attempt.

The most difficult part of the journey over the tortuous mountain cases of Southern California, Arizona and New Mexico, made with a heavily loaded plane was successfully completed. The weather bureau reports indicated that no difficulties would have been encountered between Indianapolis and New York.

POLAND INVITED TO CONFERENCE

(By The Associated Press)
WARSAW, Nov. 4.—The Polish government today received a formal invitation to participate in a disarmament conference on November 40.

A disarmament conference of the Baltic states an invitation to which Finland, Estonia, Latvia and Lithuania accepted was called recently by Russia to be held at Moscow in October.

This conference has been held.

CHAMPAIGN RESIDENT DEAD
Champaign, Ill., Nov. 4.—Mrs. Mary A. Miner, 70, for 60 years a resident of this city and for 13 years attendance officer at the public schools, died this evening from general debility.

ADMINISTRATION POLICIES ISSUE IN MANY STATES

Centers in Senatorial
Fights Thruout the
Middle West

(By The Associated Press)
CHICAGO, Nov. 4.—Endorsement or rejection of President Harding's administration by the voters of Ohio, senatorial fights in the Buckeye state, Indiana, Iowa, Michigan, Minnesota, Missouri, North Dakota, Nebraska, and Texas and the activities of a large number of women candidates for important offices are the outstanding features in Tuesday's elections in the Mississippi Valley and the middle west. Prohibition is an issue in several states.

There are a number of important referendums, including state soldiers bonus laws and in Texas, Oklahoma and Kansas the Ku Klux Klan has been made an issue.

Most of President Harding's cabinet has gone into Ohio to urge the voters to endorse the national administration by returning a Republican senator and Republican congressman. Representative Simeon Fess is the Republican candidate for senator against the present incumbent, Alton Pomerene.

Ohio will vote on a beer and wine amendment.

Miss Florence E. Allen, a woman judge of Cleveland, is a candidate for associate justice of the Ohio supreme court. Interest in Indiana is centered in the senatorial race between former Senator Albert J. Beveridge, Republican, and former Governor Samuel Ralston, Democrat. Mr. Beveridge, a follower of Colonel Roosevelt in 1912, defeated Senator Harry New, close friend of the president in the primaries last spring. Miss Esther O'Keefe, running for congress on the Democratic ticket, is the first woman nominated for that honor in the Hoosier state.

Illinois has a woman candidate for congressman at large, Mrs. Winifred Mason Hauck, who is a Republican nominee to fill the unexpired term of her father, the late William Mason.

Several Hot Contests
Several hot contests are taking place in the congressional race. One in the Danville district where a successor to "Uncle Joe" Cannon is to be chosen, and another in the Peoria district where the wet and dry issue has been raised. The state also will vote on a soldier bonus referendum and a beer and wine amendment.

Smith W. Brookhart, Republican, and Clyde L. Hering, Democrat, closed the Iowa senatorial campaign today.

Minnesota boasts a woman candidate for senator, Mrs. Anna Dickie Olson, who is opposing Senator Frank B. Kellogg, the Republican nominee. Senator La Follette of Wisconsin, has been in Minnesota speaking for Henrik Shipstead, the former Labor nominee.

Missouri is in the throes of a bitter fight between Senator James A. Reed, foe of the Wilson administration and R. R. Brewster, Republican. Reed has declared he favors modifying the Volstead law. Two women are seeking seats in congress from Missouri, Mrs. Sinclair Moss, Democrat, of Columbia, and Sophia Fritts, Independent of Kansas City.

Senator Robert M. La Follette of Wisconsin is opposed by Mrs. Jessie Hooper, Democrat, as an independent candidate. Victor Berger, twice denied his seat in congress, is running again on the Socialist ticket in the fifth district. Miss Martha Riley of Madison, is a Democratic candidate for congress in the fifth district.

Charles Bryan, brother of William J. Bryan, is the Democratic candidate for governor of Nebraska, while Senator Gilbert M. Hitchcock is being opposed for reelection by R. B. Howell, Republican national committeeman.

Mrs. E. Eula Martin, prohibitionist, is the only woman candidate for congress. Soldier bonus and anti-picketing laws are among the issues.

Kansas, Oklahoma and Kentucky have had quiet campaigns.

IOWA POLITICIANS ARE UP IN AIR

Des Moines, Ia., Nov. 4.—With the political campaigns practically ended anxious candidates, campaign managers and others interested in Iowa politics are trying to guess the outcome of the elections next Tuesday but are finding the task of figuring pluralities the most difficult one in years.

MRS. FRANCES HALL MAY DEMAND THAT STORY BE HEARD

Action Will Depend On
What Course Prosecutor
Mott Takes

(By The Associated Press)
NEW BRUNSWICK, N. J., Nov. 4.—If special Prosecutor Wilbur A. Mott goes thru with his plan to lay the Hall-Mills murder case before the Somerset county grand jury next week, Mrs. Frances Hall, widow of the slain reactor, will sign a waiver of immunity and demand that the grand jury hear her story.

This decision, announced by one fully authorized to speak for Mrs. Hall was reached today. Under the New Jersey law, it was stated, her demand could be denied in only one way—by withholding the case from the grand jury until after arrests had been made on affidavits. And in that eventuality Mrs. Hall, if she were one of those arrested, would be in a position to force a show down of all the evidence in the case by means of a habeas corpus action.

The New Jersey law, it was pointed out, provides that any person under suspicion in connection with a crime may insist on being heard by the grand jury considering the case. Mrs. Hall, it was said, regards herself as having been put under suspicion by the story told by Mrs. Jane Gibson's so-called "eye-witness" recital of the slaying of the Rev. Edward W. Hall and Mrs. Eleanor Mills and by various questions to which she has been subjected.

Mr. Mott announced he would consult with the foreman of the Somerset grand jury next Thursday as to when the case should be submitted.

This announcement, coming after an interview at Newark with Chief Justice Gummere of the supreme court was taken to indicate that Mr. Mott felt he had his case well in hand and the presumption was confirmed by persons who have worked with him.

BEVERIDGE AND RALSTON CLOSE THEIR CAMPAIGNS

Indiana's Senatorial
Candidates Close With Big
Meetings

(By The Associated Press)
INDIANAPOLIS, Ind., Nov. 4.—With a reiteration of their views regarding the issues of the campaign the Indiana senatorial nominees of the two major parties, Albert J. Beveridge for the Republicans and Samuel M. Ralston for the Democrats—brought their campaigns to a close tonight.

Mr. Beveridge addressing a monster meeting at a tabernacle in Indianapolis, declared that this is the close of the first skirmish of the mighty battle that is ahead of us to save our distinctive American institutions of orderly freedom.

Mr. Ralston spoke this afternoon at Brownstown, and again tonight at Columbus and in both addresses brought out his stand for economy in government expenditures expressed his condemnation of Republican tax and tariff laws and recalled his administration as governor.

MOTORIST KILLS BOY AND LEAVES BODY BY ROADSIDE

Son of Wealthy Farmer Run
Down Near Davenport,
Iowa

(By The Associated Press)
DAVENPORT, Iowa, Nov. 4.—Richard Herman Meier, 11 years old, son of Louis Meier, wealthy farmer residing a few miles out of Davenport, was instantly killed late this afternoon when his head and chest were crushed by a vehicle whose unidentified driver carried the lad's body to the side of the road and abandoned it.

The killing was enacted while the boy was riding a new bicycle which had just been presented to him by an uncle. A county wide search is being made for a red truck said to have passed the place of the accident a few minutes before the body of the boy was discovered by his sister.

FIFTEEN YEARS OLD GIRL TWICE MARRIED

St. Louis, Mo., Nov. 4.—Wood, won and married twice within three months the 15 year old Mrs. Gladys Wimpsey Beard, an attractive brunette with bobbed hair was spending the wedding days of her second honeymoon in the house of detention having been arrested at her father's home this afternoon on a charge of bigamy.

ENGLAND'S BIG GUNS BOMBARD CONSTITUENTS

Campaign Closes with
Flood of Oratory
Thruout Country

(By The Associated Press)
LONDON, Nov. 4.—A general bombardment of oratory all over the country closed the week's campaigning. Most of the big guns in action, while many of lesser calibre were heard in the smaller districts.

Former Premier Lloyd George delivered a speech in an old opera house in London, supported by Austen Chamberlain and Lord Birkenhead, who with their leader are playing the part of the old guard of the coalition. Premier Bonar Law addressed a big meeting at Leeds.

Viscount Grey spoke in London the Earl of Derby appeared at Bolton and Herbert H. Asquith spoke to his own constituents at Paisley with some railway speeches on the way.

Mr. Bonar Law gradually is becoming more outspoken on the points of policy of the new administration. Mr. Lloyd George is pursuing a path of moderate, reasonable opposition to the conservatives which apparently will be his course in the next spring parliament coupled with a strong defense of his own tenure of office.

As the slowly rising curtain reveals Mr. Bonar Law's policy it becomes plainer it contains nothing sensational or radical.

For the first time he touched on the Near East saying he had been bombarded with requests to know whether he proposed to drop Mesopotamia and Palestine. He declared the nation should not consider what it merely was going to but consider its obligations.

He affirmed his intention to permit Lord Curzon to direct foreign affairs, one of his principal points of attack on Lloyd George being that the former premier took them out of the foreign minister's hands. He strongly repeated the intention of his government to carry out its predecessors Irish agreement in good faith.

Stirring Prelude.
Viscountess Grey furnished a stirring prelude to her husband's speech. Posters were exhibited in the streets, inscribed:

"Who Muddled us into War? Asquith and Grey—Never again."
The chairman of the committee produced one and asked Viscountess Grey to deal with it. After a few comments by her husband, the Viscountess took the poster and tore it to pieces, to the accompaniment of cheers.

Viscount Grey asked why Lloyd George name had been omitted from the poster?

"It has been said that if he had used language of greater firmness before the war it might be avoided," he continued. "No language would have avoided it."

"Kitchen" he said, "had really one ambition, that was that at the end of the war, which he never doubted would be a victorious one he should be one of the peace missionaries of this country. He told me the chief reason that wish was that if he could do anything toward peace there would be no more Alsace-Lorraine, no tearing of provinces from a country which means sowing the seeds of future warfare."

Lloyd George's failed to appear today, they are called "cannon fodder" candidates because it is supposed they will be put up, not to be elected, but to make trouble.

CHIROPODIST IS IN SERIOUS CODITION

(By The Associated Press)
MACON, Ga., Nov. 4.—R. F. Mills, chiropodist, who was kidnapped in the fashionable section of this city tonight reached his home at midnight and was in such condition that doctors were summoned to his home.

Mills was taken from his automobile as he was driving home tonight according to a statement by his wife who said their two children were left in the machine. Mrs. Mills told the police that as her husband neared their home a big touring car ran past him and blocked the street forcing him to stop.

She said Mills was called to the larger machine, forced into it and that the big car then drove away with her husband leaving the children. A year ago, Mills was similarly seized and severely horsewhipped according to reports to the sheriff's office at that time.

J. HOWARD JAYNE IS LOCATED SATURDAY IN EVANSTON HOSPITAL

Well Known Monmouth Man is Located
After Nationwide Search is Made for Him
—Suffering Temporary Loss of Memory—
Unable to Give Officials any Information

(By The Associated Press)
CHICAGO, Nov. 4.—J. Howard Jayne of Monmouth, Ill., whose disappearance from home Oct. 24 resulted in a nationwide search, was said by his sister, Mrs. John G. Lindsay, to have been located tonight at the Evanston hospital. Mrs. Lindsay immediately hurried to Chicago from Monmouth.

When found Mr. Jayne was said to have been suffering a temporary loss of memory and gave no information regarding himself, his wanderings or his mysterious disappearance. Mr. Jayne was said to have arrived at the hospital in a taxicab this morning. His mind was a blank and the only clue to his identity he was able to give hospital authorities was the statement that he had a relative named Marcus Lindsay. This resulted in Mrs. Lindsay being notified.

Mr. Jayne vanished from home more than a week ago. He told his wife that he was coming to Chicago for a day to attend to some business affairs. When he failed to communicate with his wife or return by Sunday, she became alarmed and instituted a wide search.

When Mrs. Jayne arrived in the city she hurried to the hospital and identified her husband. He did not recognize her. When he entered the institution he had given his name as "John C. Long."

Later he said that his name was not Long but that he had been beaten over the head by a man of this name while on a railroad train.

According to physicians at the hospital, Jayne showed no signs of physical violence and was in good condition except for his inexplicable loss of memory. Mrs. Jayne remained at the hospital with him tonight.

POLITICAL BATTLE IS STILL RAGING IN HARDING'S STATE

Republicans and Democrats
Fighting Tenaciously
for Mastery

(By The Associated Press)
COLUMBUS, O., Nov. 4.—Republicans and Democrats tonight still were fighting with tenacity for mastery in Ohio. President Harding's home state. There was no indication of a let up in the campaign which has been the most intense in more than a decade until the polls are closed Tuesday evening.

Both parties were making claims of sweeping victories for their tickets, the Republicans by more than 126,000 and the Democrats by more than 109,000 pluralities.

Chairman Durbin of the Democratic state executive committee, while forecasting the reelection of Senator Alton Pomerene, and a victory for A. V. Donahey, gubernatorial candidate and the entire state ticket by more than 100,000 pluralities, predicted election of at least 14 congressional candidates.

"Bavaria will also have her Mussolini if public order is not to be otherwise achieved. He announced that a demand had been made of the Bavarian government for the punishment of professors by flogging and death, adding that if this demand did not produce a result the people would have to take affairs into their own hands.

GRAIN MAN DIES MYSTERIOUSLY

(By The Associated Press)
CHAMPAIGN, Ill., Nov. 4.—W. P. Fouts, 46, president of a local grain elevator and milling company, died this evening after having been unconscious since 8:30 o'clock this morning. The cause of his death has not been determined.

Mr. Fouts left home shortly after 8 o'clock, but returned a few minutes later and complained of being ill, members of his family said. He lapsed into unconsciousness and efforts to revive him were of no avail.

WEDDING TAKES PLACE TODAY

Doorn, Nov. 14.—The former German emperor and Princess Hermine of Reuss will be pronounced man and wife tomorrow morning by the burgomaster of Doorn, Baron Schimmel-Pennik, in the presence of six witnesses, two of them Germans domiciled in Holland and soon afterward court chaplain Vogel will give the benediction of the Lutheran rite to the union.

Chicago, Nov. 4.—Alfred Goulet and Ernest Koekler of Chicago, former western amateur champion, won the six day bicycle race which ended at 11 o'clock tonight.

WEDDING BELLS MAY BE SIGNAL FOR UPRISING

Monarchists of Bavaria
May Stage Long
Heralded "Putsch"

(By The Associated Press)
MUNICH, Nov. 4.—The wedding bells at Doorn tomorrow may prove the signal for the monarchists of Bavaria to stage their long heralded "putsch" or rising according to belief in some quarters here.

The chief factors in the Bavarian state's strained political situation declare that the current rumors are merely a repetition of other scares which failed to materialize.

The Fascist successes in Italy have noticeably encouraged the German reactionaries.

Former Crown Prince Rupprecht repeatedly has denied he has any interest in the reported movement planned for November, declaring he is heartily opposed to participation in any attempt at the restoration of the monarchy, but the Socialist press at Munich is warning the citizenry to be on guard after November 5. It declares November 1 has been fixed as "Der Tag." It claims the program is the same as that contemplated for the coup which had been planned to occur in September and it advocates reinforced guards for the streets and public buildings after tomorrow.

A reactionary speaker was loudly applauded when at a nationalist meeting yesterday he cited the accomplishments of the Italian Fascists and declared: "Bavaria will also have her Mussolini if public order is not to be otherwise achieved. He announced that a demand had been made of the Bavarian government for the punishment of professors by flogging and death, adding that if this demand did not produce a result the people would have to take affairs into their own hands.

WOMAN NAMED OIL INSPECTOR

(By The Associated Press)
PONTIAC, Ill., Nov. 4.—Mrs. Lulu Reed, was appointed by County Judge Sessler today to succeed her father William Burrell who died recently, as oil inspector of Livingston county.

Upon receiving the appointment Mrs. Reed said she would conduct the duties of the office herself after a careful test of all oils offered the retailer in her township. She is the first woman in the county to hold such a position, and is said to be the only woman in the state so employed.

GOULETT AND KOCKLER WIN SIX DAY RACE

Chicago, Nov. 4.—Alfred Goulet and Ernest Koekler of Chicago, former western amateur champion, won the six day bicycle race which ended at 11 o'clock tonight.

A THOUGHT
Devise not evil against thy neighbor, seeing he dwelleth securely by thee.—Proverbs, 3:29.
The most wasted of all days is that on which one has not laughed.—Chamfort.
Congressman Guy L. Shaw has served two years in the house representing a district which was formerly counted a Democratic stronghold. Mr. Shaw has manifested such a sincere purpose to give particular attention to the interests of the people in his home district that the natural result will be for them to voice their approval by returning him to Washington next Tuesday.
When the Republican ticket includes only the names of candidates who are reputable and qualified the Journal urges the course of voting the straight Republican ticket. This is the safest

way if one has the best interests of the county, district and state at heart. The situation is presented in the present election and no genuine flaws can be found in the record of any one of the Republican party candidates. Vote the ticket straight next Tuesday.
It is generally conceded that the work of Paul Samuel as County Judge, has been of the superior type. The complex problems coming before him have always had earnest consideration and his decisions have reflected impartiality and good reasoning. His attitude in the enforcement of laws has been firm, yet not unduly unbalanced or radical. He has a broad and clear vision not only as a judicial officer, but as a citizen. His record commends itself to Morgan County citizens.
G. A. Dunlap in his candidacy for election as a member of the county board on the Republican ticket, has declared that he will give his best thought and time to the office if chosen. Mr. Dunlap's whole life is a guaranty that every promise made will be fulfilled. If elected Tuesday he will without question be a competent and efficient member of the board.
No citizen of Springfield is better known than Dr. Euclid B. Rogers, for many years pastor of one of the prominent churches of the capital city. No good movement has stirred in Springfield during the years of his residence there except he has been identified with it. Dr. Rogers is a student of mature judgment and his interest in public affairs and his knowledge of business afford reasons for the belief that he will

prove a valuable member of the next general assembly if chosen next Tuesday. He combines the qualities which spring from education and culture, a knowledge of the practical things in both private and public life.
Earl B. Searcy as a member of the lower house during the past two years was dependable and exercised good judgment with reference to bills pending as they might affect the interests of his immediate constituents or the state at large. As a member of the senate he would certainly be found supporting the measures that sound reasoning and practical experience indicate as warranted by public interest and welfare.
There is no trouble about "locating" Charles S. Black on any question of public policy. Mr. Black has come to a prominent place in the business and civic life of his home county because of his splendid character and his conscientious adherence to those things that he counts as right.
When a man scrupulously maintains his integrity to the years of mature life, when all his acts up to that time will stand the full glare of publicity, there are the best of reasons for the belief that as a public officer he will be true to the same standards. If elected sheriff his record will be like that of a private life and the people of this county cannot ask more.
OAK LAWN SANATORIUM
The record of the management of Oak Lawn under the present board is an open book. The board has followed an economy

program while endeavoring to give the patients of the sanatorium the care to which they are entitled.
The public will be interested in knowing the expenditures made during the period of 13 months from Oct. 1, 1921 to Nov. 1, 1922:
Pay roll—\$6,075.69.
Drugs and supplies—\$436.18.
Dietary—\$4,755.58.
Light, heat etc.—\$1,299.96.
Insurance—\$955.53.
Laundry—\$488.19.
Repairs—\$3,452.30.
Interest—\$899.54.
Labor—\$1,002.23.
Equipment—\$3,425.41.
Miscellaneous expenses—\$565.27.
Total—\$25,820.91.
The sanatorium is now caring for 27 patients. A vote for a tax not to exceed one mill on Tuesday will enable the board to do further good work without handicap and to pay off the mortgage debt.
REDUCTION OF TAXES.
If the taxes for the City of Jacksonville for the year 1921 had been extended on the first levy filed with the county clerk by the city, the tax payers of the City of Jacksonville would have paid \$15,000.00 more taxes than they did.
When County Clerk Riggs made his report from the said levy filed he saw that the total tax rate for the City of Jacksonville for the year 1921 would be close to \$7.00 on the hundred dollar valuation.
He called this matter to the attention of Mayor E. E. Crabtree and asked him if he could not lower the present levy so as to lower the tax rate. Mr. Riggs told him his books were ready for the extension of taxes, but that he would delay the extension if he, Mayor Crabtree thought he could arrange with the city council to lower said levy.
The mayor called a special session of the city council and an agreement was reached that the amount levied for oil would be eliminated and also that the amount levied for garbage would be reduced from \$10,000.00 to \$5,000.00.
In accordance with the elimination and reduction of these two items respectively, the tax payers of this city were saved taxes to the amount of \$15,000.00.
This was done through the efforts of Mr. Riggs, with co-operation of the mayor and city council.
THE SOLDIERS' BONUS IN OTHER STATES
"New Jersey is giving its soldiers \$10 a month with a maximum of \$100. Wisconsin is paying \$10 a month with a maximum of \$50 and educational bonus of \$50. North Dakota is paying \$25 a month and South Dakota \$15 a month, with a maximum of \$400.
"Wyoming has given no cash bonus but has allowed tax exemption and medical and hospital aid under legislation passed in 1920. Bonuses have amounted to \$75 a year to each of several thousand soldiers.
"Arizona is helping her soldiers by an appropriation to provide farm homes and to lend money for purchase of farm implements and stock. California is giving loans for farm and home aid with a twenty year maturity, vocational training and special privileges in tax exemption.
"There is no cash bonus in Colorado but a fund has been appropriated for loans not to exceed \$200 each for vocational training. An appropriation has been made in West Virginia for the relief of needy veterans. The same is true in Nebraska.
"As in Illinois, the question of a cash bonus will be up to the people in a referendum in Montana, Iowa, and Kansas. In these states the amount to be paid the soldiers will range from 50c to \$1 a day for each day of service.
"New Mexico has appropriated a fund to be expended in co-operation with the federal government when the latter passes legislation to give American's veterans a bonus. In view of the presidential veto of national legislation and the support of the veto by the senate, New Mexico's legislation is now ineffective.
"No definite action has been taken in Florida beyond the appointment of a committee to consider the matter and report to the state legislature next April. A

SEEKS TO HEAD THE COUNTY SCHOOLS
J. Chester Colton, Woodson Young Man is Experienced in Work of School Room.
J. Chester Colton, who is the Republican candidate for superintendent of Morgan county schools, is now teaching for the fifth year in the schools of his home town of Woodson. The work he has done there is a guaranty of his qualification for teaching work and his interest in the general subject of education.
After attending school himself, this Morgan county young man entered teaching work and has engaged in it continuously since, except in the war time, when he was in the overseas service with the 84th Division. He is a Mason, an Odd Fellow and actively identified with the Presbyterian church of Woodson, serving acceptably as superintendent of the Sunday school. Chester Colton married a young woman who formerly taught in the county schools. Altogether he is a dependable young man and qualified for the office he is now seeking.

LABOR WILL FIGHT NEW CONSTITUTION

The fight against the proposed new constitution will be led in Jacksonville by the Trades and Labor Assembly. A committee, John Shields, Frank McKenna and Abe Wood, is in charge of the campaign and the securing of speakers.
Probably at least two public meetings before the Dec. 12 balloting will be held. Attorney William N. Hargrove addressed the assembly last week, pointing out the dangers of the new constitution.
Some of the reasons for labor's opposition to the proposed document are that it gives, in their opinion, too great power of injunction to the judiciary and too much opportunity for the control of judges by certain interests, as well as authorizing a new burden of taxation upon the workman in the shape of an income tax, while by its intention relieving real estate correspondingly.

ELECTION RETURNS AT COURT HOUSE
Arrangements have been completed by County Clerk Riggs for the showing of election returns Tuesday night in the Morgan county circuit room. The returns will be tabulated on a black board just as quickly as received and the arrangements will make it possible for a large crowd to watch the returns with comfort.
Mr. Riggs has asked election officials to send in bulletins from time to time as the count in the various precincts proceeds.

T. P. A. POST HELD REGULAR MEETING
Smoker Followed Business Session—Plan Membership Campaign.

At the regular monthly meeting held in the Chamber of Commerce rooms Saturday evening, Post O. Traveler's Protective Association took preliminary steps to inaugurate a membership drive.
President Woodman appointed a membership committee which will at once begin active work to increase the membership. The president also appointed an entertainment committee. A rally has been announced by the membership committee for December 4.
The post also voted \$5 to the Salvation Army and a like amount to the Social Service league. The reports of the various officers showed the local post to be in good condition.
Following the business session the members enjoyed a smoker.

ODD FELLOWS VISIT CONCORD

Concord lodge, No. 82, I. O. O. F., was visited Saturday evening by twenty-four of the members of Urania lodge No. 243.

The lodge room was well filled and many interesting and amusing talks were made by the visitors and by the members of Concord lodge.

Clyde McAllister, of Meredosia lodge, district deputy for the county, was also present and he and Judge William E. Thomson reported as to matters that had come before the grand lodge.

The Rebekahs of Concord to the number of fifteen assisted by Charles H. Goodey of this city, prepared and served plenty of excellent oyster soup to all the Odd Fellows after the lodge closed. Needless to say everyone had a good time.

The members from this city went over in five cars driven by Charles E. Williamsen, G. W. Patterson, Will Crabbe, A. C. Baldwin and William E. Thomson.

The Rebekahs of Concord are planning to come in a body and visit the Rebekah lodges of this city.

Vote For J. Chester Colton Republican Candidate for County Superintendent of Schools

HE WILL SERVE YOU WELL

J. Chester Colton is well qualified by training and actual school experience both as a teacher and as an executive. He is thoroughly familiar with the duties of the office of County Superintendent of Schools, and if elected the people will be given a stable and progressive and efficient school management.
Mr. Colton has been engaged in teaching in Woodson this fall and has not had the opportunity to get out and meet the public as he would wish, but takes this means to further acquaint you with his qualifications and to ask your support next Tuesday.

ORPHEUM TIME VAUDEVILLE

Taylor, Macy and Hawks! Sounds like old whiskey, spice and birds! There is no whiskey, no spice, but they are birds! Song birds.

All of which means that Taylor, Macy and Hawks are real headliners on the new bill which comes to the Grand theatre Monday for three days.

These three young men dress as for dinner, look like gentlemen and intersperse their number with a lot of good clean comedy which has the audience in stitches throughout their act.

They are in reality "Three Aces of Comedy and Song" with voices out of the ordinary and wholesome humor, they offer a program which varies in its selections and makes appeal to all classes of music lovers.

These boys are experienced showmen, understand what the public enjoy in variety entertainment and give it to them in a clean cut manner without any apparent effort on their part.

Al Taylor, robust tenor, besides displaying a voice of sterling quality, is a comedian of no mean ability. His facial expressions and clowning throughout the act are infectious to laughter.

Gerald Macy is a basso cantanta and character straight man. He has a rich, well modulated voice and knows how to use it. His singing of "A Son of the Desert Am I" is an artistic treat.

Bob Hawks has a lyric tenor voice which is as clear as a bell and as flexible as well tempered steel. His rendition of the "Pagliacci Lament" is one of the vocal treats of the act. Besides this vocal ability, his acting as a foil for the comedian's comedy is considered the best of its kind seen in vaudeville today.

THE TRUTH ABOUT TAXES

In conducting my campaign I have endeavored to avoid personal reference to my opponent, but as certain statements in his advertisements and newspaper items reflect upon my past service and are misleading, I deem it fair to the public and to myself to state the truth in these matters.

The present Clerk asks credit for his treatment of soldiers in pension matters and as a matter of fact it has always been the custom of County Clerks to attend to pension matters and no Clerk has heretofore asked any special consideration for this service.

He further states that he has at all times reduced taxes wherever possible, and that he is the only Clerk that has used the "Junk" law to scale down tax rates. The truth is that this Law was used by all former Clerks and the law requires its use wherever possible. The present County Clerk, however, only used this law once and in the 1920 taxes. He neglected to scale in the taxes of 1919 and 1921 and by this failure caused the taxpayers to be burdened with more than \$19,000 in excess taxes. This was fully shown by the decisions of the County Court of this County.

Respectfully, C. A. BORUFF (Political Advertisement.)

CAN'T KEEP OUT OF GROCERY BUSINESS

HARRY NORRIS
Republican Candidate for Assessor and Treasurer

Harry Norris has made a quiet campaign for the office of Assessor and Treasurer, but as far as possible has let the voters know that he elected he will be faithful to the resulting trust. Mr. Norris belongs to a family well known in Morgan County and has the experience that qualifies him for the office he is seeking.

In the office of Assessor and Treasurer the affairs of the county and of the individual tax payer should be handled justly. Mr. Norris would make such service his ideal and public interest will be served by his election Tuesday.

The Grandiose Spectacle of Ancient Rome

A faithful depiction of scenes enacted during the rule of the world's wickedest man and woman.

TIME OF SHOWS—1, 3:30, 6:00 and 8:30 p. m.

Excesses of Nero's Reign are Here Produced by the World's Best Actors

The wildest imagination can scarcely conjure up all of the fabulous and extravagant excesses of the reign of the tyrant Nero, Emperor of Rome. He did things never heard of before and no tyrant following him since has dared attempt. Every notorious excess is faithfully reproduced on the screen in all its gorgeous and brilliant settings of that time. You will see Rome as it was in the time of Nero, a replica of his Golden House, the "Domus Aurea," on Palatine Hill, where his devilish orgies were held. Recent excavations have uncovered a large portion of this wonderful house and these were filmed and will be shown.

The principal scenes of this picture were taken in Italy in and about Rome in the actual localities of the story and the cast of players includes more than thirty of the world's greatest actors, headed by Jacques Grellet, as Nero and Violet Mersereau as Marcia, with Juliette Duval as Poppaea and Edy Darce as Acte.

The responsibility and conception of the picture rests with Americans, but the cast is headed by Europeans and Americans, with more persons involved and appearing in the scenes than in any other ever filmed. A squadron of cavalry was assigned by the Italian government to preserve order during the filming of the great scenes.

FARMERS TO MEET
HERE NOVEMBER 24

Howard Leonard, president of the I. A. A. writes as follows:
The Illinois Agricultural association urgently requests the officers, executive committeemen and other farm bureau leaders from Morgan county to meet with similar groups from the counties of Pike, Brown, Cass, Mason, Menard, Scott, Greene, Calhoun and Jersey comprising the 20th congressional district at Jacksonville, Ill., on November 24th, for the purpose of discussing the proposed new constitution to be voted on December 12, 1922.

A thorough discussion will be afforded by an authority who is com-

petent to handle the subject. Following the discussion, plans will be adopted for acquainting every farmer's wife in your county with the new constitution.

It is quite generally agreed that the present constitution which was adopted in 1870 should be changed to meet present day conditions. The constitutional convention delegates have deliberated for two years on changes which are now embodied in the proposed new constitution. Farmers are especially interested in the proposed change in the revenue section pertaining to taxes.

Whether we accept or reject is a matter of far-reaching importance and inasmuch as the issues involved are non-political, it seems entirely proper for your farm bureau and state association to assume an active and aggressive position in the coming campaign for the adoption of the new constitution.

TWO ACCIDENTS IN
MANCHESTER SATURDAY

Eugene Rochester and William Whewell Sustain Injuries of Painful Nature—Other Manchester Items.

Manchester, Nov. 4.—Eugene Rochester sustained a gash in the head and some other injuries Saturday while trying to crank an Overland car. The crank flew off, striking Mr. Rochester with such force that he was thrown ten feet and rendered unconscious for a time. Dr. G. N. Lucas was called and gave the necessary attention to the injured man, who last night was reported to be resting comfortably.

William Whewell was working with an engine Saturday afternoon when the belt broke, one end striking him in the face and cutting a bad gash in his lip. Dr. J. W. Weiss was called and found it necessary to take several stitches to close the wound.

News Notes
Mrs. Wallihan returned to her home in Galesburg Wednesday on a visit of several days with relatives here.

Miss Fannie Argus of Winchester is visiting relatives here.
Mr. and Mrs. John Blakeman visited their daughter, Miss Velma Blakeman, who is a patient at Dr. Prince's sanatorium in Springfield, taking treatment for her eyes. The many local friends of Miss Blakeman are glad to know that she is making satisfactory progress toward recovery.

Friends here have received word of the arrival of a daughter recently at the home of Mr. and

Mrs. J. J. Weatherbee at Memphis, Tenn. Mrs. Weatherbee was before her marriage Miss Lela Clone and was for several years a teacher in the Manchester schools.

Mrs. Robert Cooper returned to her home in Roodhouse Saturday after a few days' visit with her mother, Mrs. E. C. Chapman.

IS SEN. WHEELER ENTITLED TO SECOND TERM?

(Communication)
Dr. John A. Wheeler was nominated and elected sheriff of Sangamon county by the Sullivan (or wet) organization. Defeating Sam Metcalf, the Democratic nominee who was endorsed by the dry forces. He took an obligation to enforce the laws and lived up to that obligation, at the cost of his wet friends. Mr. Metcalf says: "If there is a gentleman in Sangamon county it is Dr. John A. Wheeler."

At the expiration of his term as sheriff he asked the people to bestow upon him the high honor of being Senator from this district, and he was elected. After serving one successful term he announced himself as a candidate for re-election.

Circumstances had caused Senator Wheeler and Governor Len Small to be enemies of Sullivan factions.

Senator Wheeler feels that an injustice has been done him (that he is entitled to a second term, that the issues were clouded and that the nomination was stolen from him) and he is doing the honorable thing, by becoming an independent candidate. Giving the people a final chance to open their eyes and to say to Mr. Searcy (who was the logical candidate for re-election as a representative, and who permitted himself to be the tool of the Sullivan organization) No! Senator Wheeler has made a good public servant, he has been tried and found not wanting, and we will give to him that which he is entitled a second term.

The Style Clothes
of America

Remember the story of the father who gave his son paper, pen and ink, locking him in a huge library and told him to write a great poem. The boy had all the material but lacked imagination.

Beautiful all-wool fabrics are of little value until, by the wizardry of the tailor's needle, they are fashioned into a stylish garment.

It is this extraordinary skill, this imagination—if you please—that has made the Stratford Clothes above and apart from the usual in clothes. Small wonder that they are termed by young men of better dress "The Style Clothes of America."

Come in and see our Fall Display. A visit of inspection involves no obligation. We're always glad to see you.

ois College Y. W. Annual Banquet. The feast of the Triangle, the banquet of the Y. W. C. A. Illinois college was held last evening in the recital room at the Y. W. C. A. A delicious four-course dinner was served at 6:30 p.m. and covers were laid for twenty-eight guests. Chrysanthemums and other fall flowers were used in attractive decorations and on the tables a color scheme of blue and white was carried out. White candles, nut and place cards with little triangles were used with effect on the tables.

toast was given after the banquet and Mrs. G. E. Stickney acted as toastmaster. Miss Mildred Butcher responded to the first toast after Mrs. Stickney's word of greeting, taking as subject "Y. W. C. A. Ideals for Our Own College." The third toast was given by Miss Helen Ecker, who spoke in behalf of new girls telling of the "Ideal Y. W. C. A. as the New Members See It." Miss Mable Rayle made a short address of welcome to the girls from the old members. Mrs. G. H. Scott responded to the toast taking as her subject, "International Y. W. C. A." Eunice Williamson gave the toast speaking of "Our National Y. W. C. A."

entertained Friends. Mr. and Mrs. Harry F. Walker recently entertained a number of friends Friday evening at their home on South Diamond street. The evening was spent in games and music after which light refreshments were served. Those

present were Mr. and Mrs. Frank Hagen, Mr. and Mrs. Dallas Hagen and son, Mr. and Mrs. Albert Crabtree, Mr. and Mrs. Harvey, Mr. and Mrs. Recker and daughter and Mr. and Mrs. John Baker.

Box Social and Program Held.

A box social and program was held at South Jacksonville school Friday evening under the capable leadership of Mrs. A. G. Crozier, and Mrs. Alpha Crozier. A short program was given consisting of the following numbers.

A reading by Miss Pauline Galley. A piano solo by Miss Mary Walters. A vocal duet by Miss Irene Crozier and Miss Margaret Sutton. Violin solo by Miss Ada Galley, which was so vigorously applauded that the little graciously responded with an encore. The boxes were auctioned very capably by Amos Coker from which the goodly sum of \$51 was realized. The highest price paid for a box was \$9 by A. G. Crozier second highest \$5 by B. Jones, principal of the school.

A feature of the evening which occasioned a great deal of merriment was the reading of a unique and original poem by F. C. Galley one of Jacksonville's unknown poets. The entertainment was for the benefit of the school library and the ladies are sure to be congratulated on the result of their efforts. One beautiful box was bought by Will Beasall the shape of a ship named South Jacksonville.

Gave Evening Party.

Dr. Josephine Milligan and Dr. Grace Dewey entertained a company of young people Saturday night at their West State street home in honor of Bruce and William Milligan. It was a dancing party and all of the appointments were of a kind to make it very enjoyable. Miss Virginia Spink was at the piano.

CLASS RINGS ARE ORDERED All but eighteen of a class of 130 high school seniors have ordered class rings. Class spirit is running high this year at the high school, with class fights of more or less interest nightly. The knuckle ornaments, one sign of that spirit, were ordered through Russell and Thompson, and are of gold black enamel.

PAIGE CAR WILL BE GRAND PRIZE

Was Selected by Committee in C. of C. Gift Campaign—List of Supporters.

A Paige 6-66 Larchmont sport model, with distel wheels, special upholstery, and the most attractive color scheme that can be selected by the representative of the Chamber of Commerce sent to the Paige factory, will be the grand prize of the big gift campaign of Jacksonville merchants, Nov. 15-Jan. 3.

A Ford touring car will be the second prize, and over 200 additional gifts, including goods, apparel, jewelry and other miscellaneous merchandise, will be on display at the show room, to tempt people to interest in Jacksonville goods.

The show room is at the North Main entrance to the square and will be decorated for the purpose early this week.

The executives emphasize that this is co-operative enterprise of the merchants, through their Chamber of Commerce, that there is no rake-off to anybody, and that the merchants expect to pay for the campaign from the profits of extra trade, and not by price-raising.

Be sure to witness "Her Gloves," Marquette hall, Franklin, next Friday night. A splendid cast. Given by Sacred Heart parish.

CARD OF THANKS We desire to in this way express our thanks to neighbors and friends for their many acts of kindness at the time of the death of our infant son. We especially desire to thank all those who sent flowers. Mr. and Mrs. John Mahoney.

PLEASING PROGRAM GIVEN AT WINCHESTER

Second Day of Dedicatory Exercises For New Community High School Largely Attended—Other News Notes From Scott County Town.

Winchester, Nov. 4.—The second day of the dedication of the new community high school was attended by a larger number than even the first day and the program as previously announced was carried out, beginning at 2 o'clock. There were special drills by the 7th and 8th grade pupils and by the physical training classes of the high school.

An interesting feature of the afternoon was the basketball game between Manchester and Winchester teams, resulting in a score of 13 to 5 in favor of Manchester.

During the intermission the band boys presented F. R. Waters their former director, with a beautiful watch and chain, showing their appreciation of his work last winter.

Mr. and Mrs. S. G. Smith and Mrs. Eckman gave a pleasing program Friday evening following the orchestra numbers.

The household science department, assisted by other members of the club, served a splendid chicken dinner from 5 to 7 o'clock. Later a number of the young people enjoyed a dance in the gymnasium. Altogether the two days will long be remembered by all those present.

News Notes Mrs. Sam Bailey and daughter of Jacksonville are here for a visit with relatives and friends.

Mrs. Walter Cline of Medora visited Friday and Saturday with friends in Winchester.

Hon. H. T. Rainey of Carrollton addressed a meeting at the court house Saturday evening, discussing various issues of the present campaign.

Frank Fitzgerald and son Jack were visitors in St. Louis this week.

What Is a Fine Watch?

Nine out of ten persons would reply at once, "Why, one that is reliable."

Yes, that's true. But what causes one watch to be considered "reliable" under all circumstances and another that is the same in appearance to be absolutely undependable.

A cheap watch necessarily is made of inferior materials, has none of the refinements of workmanship that make for accuracy, little time can be spent in its adjustments, and because of these facts its parts soon become worn and the watch not dependable—worthless.

A "fine watch" need not necessarily be expensive to be an accurate and reliable time-keeper. But, its principal parts—"the works", must be of material that is hard enough to resist wear; they must be accurate, and

finely polished, the jeweled bearings must be exact. This work takes time and requires skilled and highly trained, highly paid workmen.

A "fine watch" costs more because of the material entering into its make up and the time required to produce it, but it's worth it because dependable. A person may pay a fabulous price for a watch and have no more faithful time-keeper than a "standard." He has satisfied a desire for a rich and jewel-studded outer case. The matter of a case is personal.

We shall be glad to talk watches with you, and to show you guaranteed, reliable time-keepers at moderate prices.

JACKSONVILLE WINS FROM PITTSFIELD

LOCALS PLAY GREAT FOOTBALL IN TAKING GAME BY 41-7 SCORE

Hunt's Work Featured the Game—Local Quarterback Carries the Ball Repeatedly for Big Gains—Pittsfield Held Well in First Half of Game, the Score Being 8 to 0

Jacksonville high got sweet revenge on Illinois field yesterday afternoon when she defeated Pittsfield high by a score of 41 to 7. It was the first victory for Jacksonville over the Pike county boys since 1919.

The score, however, does not indicate how evenly the teams were matched. During the first half Pittsfield played the locals almost on even terms, the score at the end of the first quarter was 2 to 0 in favor of Jacksonville, Pittsfield having been forced to a safety. At the end of the half the score was 8 to 0 in favor of the locals.

In the second quarter the locals got to going and several of Pittsfield's men were groggy and were laid out after almost every play. Then Jacksonville began to play with more dash and rapidly piled up points.

Hunt had a field day. Never since he has been a member of the Jacksonville team has he given a more brilliant exhibition of football. He repeatedly carried the ball for long gains and kicked two field goals for point after touchdown. He also missed a drop kick from the 45 yard line by inches after signalling for a fair catch. Hunt also played a great defensive game.

He had able assistance in offensive work by Corbridge, Johnson, Arnold and Lewis. The Jacksonville line held hard and fast most of the time. Once or twice Pittsfield showed a flash of form and punctured the line for gains. They also worked the inside kick for several gains. In the closing minutes of the fourth quarter Mitchell put in his second string men and Pittsfield by several long passes carried the ball over for a touchdown and drop kicked goal for the point.

For Pittsfield Bolin, Irick, Oakley and Cawthon did good work on the offense and also on the defense as the Pittsfield line was not holding and these men were compelled to stop most of the plays after the man carrying the ball got thru the line.

First Quarter. Jacksonville kicked off. The ball passed over several times, neither team being able to make consistent gains. Finally Hunt tried a drop kick from the 37 yard line which failed and Pittsfield put the ball into play on her 20 yard line. An offside play put the ball back five yards. Cawthon attempted to punt and the ball hit one of his own linemen and he was forced to fall on it for a safety.

PILOT PLAYS FAST GAME AT GUARD

CAPTAIN SCHWAB

In Captain Schwab, Lafayette has one of the greatest guards that ever graced the eastern gridiron.

Last year Schwab was an All-American selection. This year he is playing an even better game, and is practically certain of winning a place on that famous mythical eleven.

Schwab is a whale on the defensive, is mighty fast for a big fellow and can carry the ball with the best of them. A player like Schwab in the line gives confidence to every other forward.

PAUL GASTNER IS SUPERMAN IN GAME WITH INDIANA U.

(By The Associated Press) SOUTH BEND, Ind., Nov. 4.—Paul Gastner in scoring all of Notre Dame's points in the 27 to 0 victory over Indiana today, did everything a football team can do. He dropped kicked from the 45 and 35 yard lines, scored two touchdowns following runs of 20 and 22 yards from scrimmage, intercepted a pass and ran 35 yards for another touchdown, kicked three goals after touchdown, returned a kick off 55 yards and played a strong defensive game. His punting averaged 50 yards and one kick was good for 68 yards in the air.

Don Miller paved the way for two of Gastner's markers by strong driving for long gains off tackle.

EASTERN FOOTBALL VS. THE WEST

Walter Camp, Famous Critic Notes But Very Slight Difference.

By BILLY EVANS That Western Football is commanding much attention in the east is proved by the way a number of the leading experts divide their time at the various big games.

Once upon a time it was regarded as a rarity to have some noted eastern football expert grace a western game with his presence. Those days are over. At the Ohio State-Michigan game a score of prominent eastern football critics were in attendance. All of them of course were loud in their praise of Ohio State's magnificent new stadium. They were very frank to admit that nothing in the east compared with it.

That is some compliment when you recall that Harvard has a wonderful stadium and the Yale bowl for years has been one of the sport wonders of the world. In addition they said equally nice things about the play of both teams.

Had a Chat With Camp. It was my very great pleasure to sit next to Walter Camp, the dean of football critics. Naturally we exchanged opinions as to the football situation in the east and west. Camp attended the Yale-Iowa game, and of course, I was much interested to know what he thought of the "Big Ten" champions. In response to my inquiry on that point he said:

"Iowa has an excellent team, well coached in the fundamentals of the game. Its secondary defense effectively blocked every effort made by Yale to forward pass. Quarterback Parkin impressed me most favorably. He was easily the outstanding star of the Iowa team.

"In Locke I was a trifle disappointed. I had heard so much about him I probably expected too much. He played a remarkable defensive game, which I am inclined to think tired him out and prevented him from doing as well on the offense.

"He fumbled rather badly on several occasions after being hard tackled by Mallory of Yale. The way Mallory was tackling that day was enough to make any man carrying the ball to fumble."

Getting away from Iowa, Camp paid a nice compliment to Mallory by saying that he is easily the best defensive back that has shown in the east in years.

Camp is of the opinion that there is little difference between the grade of football played in the east or west. Of one thing he is certain and that is this. Yale and Princeton, the two teams to play against the west, are far from being the best teams in the east.

To his way of thinking, Harvard and Lafayette, are the class of the east this year and will assert it before the close of the season. Harvard, he says, has a great eleven, with plenty of reserve strength, but will probably lack a variety of play.

Captain Goebel of Michigan by his great work in the Ohio State game made a most favorable impression on Camp, and it is a certainty that when that well-known eastern expert sits down to pick his All-American team Goebel will receive much consideration, as he should.

CREIGHTON WON FROM SOUTH DAKOTA OMAHA, Neb., Nov. 4.—Creighton university's football team, playing raggedly through the first two periods, found itself in the last half of the game today with South Dakota university and backed, sprinted and passed to a 12 to 6 victory. Both the Creighton touchdowns were made in the third period following the appearance of Lew Lane, star quarterback.

Only Three Regulars in Gridiron Squad of Southern California

LOWER LEFT, CAPTAIN CALLAND; CENTER, BAKER; UPPER RIGHT, KINCAID

The University of Southern California enters its first year in the Pacific Coast Conference with an inexperienced but fighting team.

Only three members of last year's eleven are in school. The loss of eight regulars is quite a task for Coach Henderson to surmount.

Captain Calland at fullback, Tiernan at center and Kincaid at

half are the three stars around whom Coach Henderson must build his team.

Coach Henderson has little hope of making much of a showing against the champion California aggregation. He is pointing his team to the game with Washington State on Nov. 30. By that time he hopes to have his raw material whipped into shape. Charlie Dean, peer of the line, hitting fullbacks on the coast last

year is gone. In his place Coach Henderson has Roy Baker, who has already earned the sobriquet of "Ironides" from his teammates.

Baker bids fair to equal the deeds of Dean. Baker has the ability and needs only the polishing that comes with experience. Of the new men more is expected of Baker than any other man in the squad.

HARVARD REPULSES ANOTHER INVASION

(By The Associated Press) CAMBRIDGE, Nov. 4.—Harvard repulsed another southern invasion, defeating the University of Florida, 24 to 0. The team with the alligator mascot was unable to cope with the Harvard system of football play. The Harvard, supported today by only a few regulars, by many second string men and in the end by a team that was one of tertiary strength, stopped almost at inception all the southerners' attempts at score, forced the Floridians into fumbles and proved productive of 24 points, three touchdowns and three subsequent goals, with one goal from field. Churchill, recovering on Harvard's 12-yard line the bounding ball that had just been kicked off, to start the day's play by slanting evasion and forward drive 88 yards to the southerners' goal.

RADIO CAPTURES LATONIA FEATURE

(By The Associated Press) LATONIA, Ky., Nov. 4.—Radio, owned by Will Perkins, negro horseman and piloted by Jockey H. Thurber, won the Latonia cup event at Latonia today, established a new American record and clipped three fifths of a second from the track record for the distance by running the two-and-one-half in 3:49 flat. Rockminster was second.

The race, which featured the closing program of a 31 day meeting at Latonia, carried an added value of \$7,500, \$800 of which went to the second horse and \$40 to the third.

WABASH WINS FROM PURDUE

(By The Associated Press) INDIANAPOLIS, Nov. 4.—The Wabash college football team gained a 7 to 6 victory over Purdue university today by scoring a touchdown and a place kick after touchdown in the final quarter. The Wabash touchdown was made when a Purdue punt was blocked and recovered by a Wabash player on the Purdue one yard line.

Knee carried the ball over on the first play and Duffin kicked goal. Purdue's score was made in the third period by Wellman on line plunges, end runs and a successful forward pass.

BLOSSOM TIME WINS FUTURITY

(By The Associated Press) BALTIMORE, Nov. 4.—Blossom Time, E. R. Bradley's entry from the Idle Hour Stock farm, and a rank outsider in the betting, won the first division of the Pimlico Futurity today by more than a length over Dones, another outsider owned by J. S. Ward.

Sally's Alley, from the Willis S. Kilmer stables, generally regarded as favorite, won the second division of the event, taking the lead at the start and never being headed. She won by more than a length. Albert Johnson rode both horses, establishing a record in turf history for one day. The times were 1:39 4-5 and 1:39 1-5. The purse was for \$80,000—believed to be the largest ever offered for a horse race. The race, including added money was worth \$41,915 to each of the winners. The race was over the mile distance.

Blossom Time paid \$57.50 on a \$2 mutual ticket. Dones, second horse in the first division on the same ticket, paid \$37.90 to place and \$13.90 to show. Sally's Alley paid \$5.10; Martingale, who finished second to Sally's Alley, paid \$18.20 to place and \$8.80 to show.

TIMER STOPS; TEAMS PLAY FORTY MINUTES

(By The Associated Press) NEW HAVEN, Conn., Nov. 4.—After the Yale and Princeton freshmen football teams had battled for 40 minutes straight today, Field Judge Harry McCormick began to doubt the correctness of his time piece. After the Yale cubs had scored their first touchdown McCormick blew his whistle for the end of the first period.

The players all felt as if the game must be over, but to their surprise they were told that they must play three more periods. A new watch was secured and the game continued. It was nearly dark when the Yale freshmen came out victorious 21 to 0.

NEBRASKA LOSES TO SYRACUSE IN BITTER CONTEST

Eastern Team Triumphs Over West by Margin of One Field Goal

(By The Associated Press) SYRACUSE, N. Y., Nov. 4.—Syracuse triumphed over the west today, the margin of one field goal. Syracuse university defeating the University of Nebraska 9 to 6 in the hardest fought battle witnessed at Archibald stadium in years. The field was heavy and few trick plays were attempted, straight football predominating.

In the first period with the score 3 to 0 in favor of Syracuse, Thomas, Nebraska end scooped up a fumble and raced from the field for a touchdown. Syracuse electrified the crowd in the final period by unleashing a powerful drive.

Driving down the field from midfield, Syracuse backs ripped consistent gains of three and yards on every plunge. And the veteran half back of the Orange squad, did most of the ground ing on straight line plunges.

Only two yards to go for the winning score he smashed across between the Nebraska center and guard for a touchdown.

Honors were even for the part through the game, neither Nebraska nor Syracuse being able to make consistent gains on line but end runs.

Syracuse scored early in the opening period on a 35-yard field kick by McBride. The Orange recovered a Nebraska fumble on Scarlet 20 yard line and threw their opponents' goal with a series of line plunges and a short forward pass. With the ball only a few yards away from its goal line Nebraska field and Syracuse surrendered over to the westerners.

A punt by Nebraska failed of distance and Zimmerman signalled a free catch on the westerner yard line. A tee was then put and McBride sent the ball over a short kick. That ended the second period for Nebraska. The side could gain the distance when possession of the ball and punts frequent. Then came Thompson's spectacular touchdown.

The lineup and summary:

GIRARD LOSES TO CARLINVILLE HIGH

GIRARD, Nov. 4.—Girard High lost to the strong Carlinville high school here this afternoon before one of the largest crowds that ever attended a football game in this area. The final score being 27 to 0.

The Carlinville team has not a game this year and presented one of the strongest teams ever seen here. The backfield was one of the greatest and its interference for the man carrying the ball was perfect.

The best of spirit prevailed between the players and spectators as Girard was well satisfied to be Carlinville as well as she did. Ralph Bowen was referee and Thomas Smith umpire.

Illinois Comes from Behind to Defeat Purple

ZUPPKE'S MEN WIN BY NARROW MARGIN OF ONE FIELD GOAL

Northwestern Gets the Jump on the Illini and Score Field Goal in First Quarter—Illinois Braces and Kicks Two Field Goals in the Second Half of the Game

(By The Associated Press)
URBANA, Ill., Nov. 4.—Fighting its best game of the season altho handicapped by a crippled aggregation, Illinois today came from behind and defeated Northwestern 6 to 3 after the Purple had gained a 3 to 0 lead.

Each side made all its points thru field goals. Playing before a crowd of 23,000 "dads of Illini" and a great aggregation of Evanston rooters, the Illinois team hit its stride early in the second quarter, opened the third period with a great burst of speed and had the visitors on the defensive for the rest of the game.

Northwestern made its points in the first quarter when Penfield, Northwestern tackle, took advantage of Bob Weinecke's 65 yard punt and on the exchange the ball was placed on the Illinois 30-yard line and booted over for a 36 yard drop kick.

In the second quarter the Zuppke men took a brace altho most of Coutechie's passes were knocked down by Northwestern. In the third period Coutechie tried a drop kick from the 40 yard zone but missed. In punting out Weinecke was hurried and Coutechie caught it in midfield.

Illinois completed two of four long passes to Northwestern's 12 yard line where Coutechie kicked goal for Illinois' first points. Illinois' return to line plunging proved as unsuccessful as usual but on the kickoff Illinois brought the ball back to Northwestern's 48-yard line. Stoik and Happeney advanced the ball to the 42 yard line where Coutechie registered his second successful drop kick for the deciding point.

Stoik, the Clinton, Iowa, youngster who replaced Melvin at left half, appeared for the first time in conference football and it was his 59 yard punt which gave Illinois the edge after he had made consistent five and ten yard gains, thru line plunges. Weinecke's long punts for Northwestern also featured the contest, the punts of both men being preliminary to the scoring in each instance.

The last quarter was featured by a continuance of the punting tactics that each team had worked successfully. Sam Hill, Illinois fullback gained consistently thru line plunges in the final quarter.

Northwestern's fumbles proved costly especially one in the last period when Rembe dropped Stoik's pass on his own 16-yard line, Captain Wilson of Illinois recovering. The game ended after two line backs by Robison and Stoik which placed the pickin on the Purple's five yard line.

Captain Patterson of Northwestern hit off tackle for many good gains and Bob Weinecke's dives around left end and Palmer's end run featured for Northwestern, but the Illini forward wall without the playing of Bill Augur at tackle, held the Purple to two first downs. Heinie Penfield went thru the Illini line on three occasions to break up triple passes but this play went for good gains three other times.

Happeney played his usual brilliant game at half for the Orange and Blue, getting away around the end for a 35 yard run. He was injured in the last quarter and Bill Robison replaced him.

Capt. Wilson nabbed two of Coutechie's passes for 12 yards each and Melvin got another for 15 yards. Illinois

LIVELY BALL HAS CREATED NEW STYLE

What about the lively ball that has caused all home-run records to be knocked to smithereens in the last three years?

President John Heydler of the National League recently came to the defense of the lively ball, saying that it supplied the much needed punch of the game, hitting.

For a time the moguls of baseball ridiculed the idea that the new ball was livelier than those used five years back. That has all been settled. At the officials of the factory that manufactures all the cork center balls used in the majors said:

"The ball now in use is a lively ball because it is the best ball that we have ever made. I am positive it is the popular ball. I must be admitted that it created a new era in sport, long-distance hitting. Also remember that during the last four years all attendance records have been broken, which makes it seem that the public is in favor of hard hitting."

Back in 1900 E. C. Robertson of Purdue is credited with seven goals from placement in a game with Rose Poly.

Herbert "Flash" Covington, successor to "Bo" McMillan as quarterback at Centre college, made six successful drop kicks in the Danville, Ky., on October 28, with the University of Louisville.

In performing such a feat, Covington established a world's record for drop kicking. The best previous record was five successful drop kicks, held jointly by B. W. Trafford of Harvard and Walter Eckersall.

Trafford made his record in 1890 in a game with Cornell. Eckersall twice turned the trick while at Chicago. First against Illinois in 1905 and the following year against Nebraska.

Of the six successful field goals made by Covington, the longest one was from the 40-yard line, while one was from the 32-yard line and two from the 30-yard mark.

SPECTACULAR PASSES GIVES YALE VICTORY

(By The Associated Press)

NEW HAVEN, Nov. 4.—With spectacular passes and brilliant runs by Neidlinger, third string quarterback, Yale played the undefeated Brown eleven off its feet and romped away with a 20 to 0 victory today. Three Neidlinger made three of the prettiest scoring plays witnessed in New Haven in years. A forward pass from Wight of Yale, to Neidlinger on his own 22 yard line, to Neidlinger netted Yale 70 yards, their longest gain, and a touchdown in the last period.

ROODHOUSE WON FROM WHITE HALL

Is Outplayed in First Half Which Ended 3 to 0 in Favor of White Hall—Roodhouse Scored Touchdown and Safety in Third Quarter.

WHITE HALL, Nov. 4.—White Hall outplayed the undefeated Roodhouse team during the first half of their game here today, but weakened in the final period, Roodhouse winning 9-3.

Roodhouse scored the only touchdown of the game in the third quarter, with Whitworth carrying the ball. Roodhouse scored two more points in this quarter when White Hall was forced to a safety.

The White Hall score was made in the second quarter when McClure registered a drop kick from the 23 yard line. During the first half of the game the ball was in Roodhouse territory most of the time.

The loss of England, White Hall left end through an injured knee handicapped White Hall after the second quarter and Roodhouse waded through them consistently. The game was slow, but close and interesting all the way.

The Roodhouse men used a peculiar formation for calling signals, the entire team forming into a circle with locked arms for the calling of signals.

Roodhouse had played five games previously. Only one other team, the Illinois State Deaf School of Jacksonville, scored on them. Today's score was their smallest of the year. Officials were: Bayless, Jerseyville, referee; Kime, Jerseyville, umpire; Wells, Grinnell college, fa., head linesman. Attendance, 600.

MISSOURI TIGERS LOSE TO AGGIES

(By The Associated Press)

COLUMBIA, Mo., Nov. 4.—The University of Missouri football team lost its second conference game this afternoon to the Kansas Aggies 14 to 10. Inability to break up the wild cat passing offensive in the second and fourth quarters cost the Tigers a game which they apparently had won in the third period when Al Lincoln, giant Tiger half back led two marches down the field, one for a touchdown and the other for a 35 yard goal from placement.

MICHIGAN SWAMPED MICHIGAN AGGIES

(By The Associated Press)

ANN ARBOR, Mich., Nov. 4.—Helpless before the attack of the Wolverines, the Michigan Aggie football team went down to defeat before Michigan today, 63 to 0.

The Michigan backs, Kippke, Cappon and Keeler plowed almost at will thru the Aggie line and circled the ends for long gains. Michigan also revealed a brilliant forward passing attack, several passes for 40 yards or more being recorded.

DRIVER HURT WHEN TEAM RUNS AWAY

A broken ankle and several cuts and bruises resulted when James Burkery, driver for Cain Mills, fell from his seat while endeavoring to halt his runaway team. The runaway occurred at 6 o'clock Friday evening. Burkery was taken to Our Saviour's hospital for attention. The team was finally halted by onlookers.

FOOTBALL PLAYER BADLY INJURED

Carlyle White, member of the Beardstown high school football team, suffered a crushed shoulder in the game with Griggsville at Griggsville Saturday, and was brought to Passavant hospital, where Dr. W. P. Duncan took charge of the case. Dr. Sole of Beardstown arrived to assist, and Mrs. White, mother of the boy came also. It was necessary to cut open the shoulder and set the several broken pieces of the clavicle together. It was a delicate operation, necessitating care to prevent breaking the large blood vessels close to the fracture.

No Romance In Football For These Two Athletes

Football fiction calls for a fair admirer. Equally necessary is a long run for a touchdown by the college hero.

The suspense hinges on two big blue eyes, or brown, if you prefer that color, that spur the hero to greater efforts.

Then there is the happy ending that is the culmination of every romance, gridiron or otherwise. The fiction plot often holds good in real life. Every college football hero has a bevy of fair admirers.

For two stars on the famous University of California team football has lost much of its romance, if you follow the line of reasoning as advanced by the short story writers.

"Spud" Spaulding, crack half-back on Andy Smith's great team, and Guy Hafford, star end, are very much married.

Both are "war grooms," so to speak.

Spaulding was a machine gunner "over there" and when he hit the Hindenburg line many a Boche took the count.

BILLY EVANS SAYS

Open play in football may be risky but it is a great weapon for a team that is being outplayed in the line.

In the now memorable game between Princeton and Chicago the latter team had much the better line. Chicago, until the final period, gained almost at will through the Tiger line, which Princeton could make little or no headway against the Chicago forwards.

It didn't take Quarterback Gorman of Princeton very long to realize that he was up against it as far as making any worth while gains through the line. It was apparent to him that Princeton must open up if it was to have a chance.

The first score made by Princeton was the result of a 45-yard pass, Cleaves to Gray. The second score was made by Gray who recovered a fumble and ran 40 yards for a touchdown. The final touchdown was largely the result of a series of successful passes.

To my way of thinking one of the greatest plays I ever saw on the gridiron was pulled by Princeton in the Chicago game. It was a risky play but it worked, and it probably saved the day for the Tigers.

In football as in any other sport, the winning team is an aggregation that mixes 'em up. A successful eleven must have a variety of plays and formations. The system mustn't be stereotyped so that the opposition can soon wise up to the style of play.

The play I have in mind as one of the greatest I ever saw pulled was staged in this manner: Chicago kicked off to Princeton. Gorman received the ball on the 7-yard line, ran a few feet and then turned and hurled a long pass to Cleaves who ran the ball to midfield.

It was a pretty play and the Tigers seemed out of danger. Then it became apparent that something was wrong with the play. The officials ruled that Cleaves was not eligible to receive the pass. The ball was brought back and a penalty inflicted.

It seemed there was no other play to make except a punt by Princeton. Cleaves dropped back about 10 yards behind the goal line and apparently set himself for a punt. The ball was passed to him. He held it momentarily while five or six Chicago players broke thru to block the kick. It seemed as if they would.

Then, to the amazement of the 20,000 fans and the Chicago team he hurled a beautiful forward pass to Gorman standing on the Princeton 10-yard line. The fleet little quarterback ran it to the 40-yard line before he was downed.

I have never seen anything quite like it for nerve. It was a play that required guts plus perfect execution. Cleaves and Gorman proved they possessed both.

TOLEDO HIGH WON FROM LANE TECH

TOLEDO, O., Nov. 4.—With a team composed largely of substitutes Walt high school defeated Lane Tech of Chicago this afternoon 66 to 0.

The Chicagoans were placed on the defensive at the outset and their opponents goal was threatened at no time. Waite scored 33 points in the first half.

NOTRE DAME TEAM FACES HARD GAMES

Coach Knute Rockne of Notre Dame is one of the dramatic figures of the present football season.

After producing great teams at Notre Dame during his four years as head coach—teams which lost but two games in four years, and which won three consecutive games from West Point, Nebraska, Indiana and Purdue, Rockne found himself shorn entirely of the masters of the game who made history in 1921, when the football squad reported.

Ten men of that team had been picked for all-America by some expert or other. Paul Castner, who broke into a 50-50 division of the right half position as the season closed, was the only regular who remained.

In the meantime, Rockne, who is also director of athletics, track coach and almost every other thing there is in Notre Dame athletics, had scheduled Georgia Tech, Army, Nebraska, Carnegie Tech, Purdue and Indiana for major games. Depauw and Butler were carded as soft spots. St. Louis and Kazoo as setups.

Kazoo acted nobly, but St. Louis refused to be walked on. Then Depauw tied Indiana and Butler beat Illinois. Carnegie Tech tied and outplayed W. and J. So, beginning with Purdue Rockne faced eight hard games in a row—faced them with a team composed mostly of sophomores. And during the Purdue game he lost his most valuable lineman for the season—Tom Lieb—who went down with a broken leg.

Did Rockne quit? It was then that the wonderful personality which more than any other factor results in Notre Dame's greatness in football asserted itself. He told his men that he would be hard to satisfy from then on. That they must make up for lack of weight and lack of experience by something else—the something else which had given Notre Dame teams the title of "Fighting Irish."

"I don't want men who will go in and die gamely," he said. "I want men who will go in there and fight to live."

It's worth remembering—vote the Republican ticket straight next Tuesday.

VETERANS SLIPPING AT SHORT STOP

Unquestionably the veteran shortstops in the American League are slipping.

A few years back the names of Scott and Peckinpaugh would be immediately mentioned if one was selecting the best short stop in the Johnsonian organization.

Those days are over. Scott has gone back badly. He has slowed up. The spirit is there, but he can no longer cover the ground. In the series with the Giants a half dozen balls escaped him that would have been easy chances a few years ago.

Peckinpaugh is also going the other way, but not as rapidly as Scott. Peck can still cover the ground.

Walter Gerber of the St. Louis Browns is one of the old standbys who seems to be going as strong as ever.

The two most brilliant shortstops in the American League last year were youngsters, Chick Galloway and Rigney.

Joe Sewell, the Cleveland short stop, who gave so much promise in 1921, had a bad year of it last season. He appeared to have lost a bit of his confidence.

It's worth remembering—vote the Republican ticket straight next Tuesday.

ALABAMA UPSETS DOPE BUCKET IN PENN CONTEST

(By The Associated Press)

PHILADELPHIA, Nov. 4.—The University of Alabama made inter-sectional football history when the Southerners trounced the University of Pennsylvania 9 to 7 in one of the most bitterly fought gridiron battles seen on Franklin field in a long time. A touchdown and placement goal represent the score of the team from the south while Pennsylvania's 7 points were made on a touchdown and point after touchdown. Alabama outplayed Pennsylvania thruout.

ILLINOIS DEFEATED MONMOUTH COLLEGE

Harmon's Blue and White Squad Wins First Game of Season on Foreign Field—Final Score 13 to 0.

Evidently Coach Harmon has developed what his team has lacked all season, a punch, for it snowed Monmouth college under on its own field yesterday afternoon by a score of 13 to 0.

Coach Harmon during the past two weeks has made a number of changes in his squad trying to get offensive power. The team has played good defensive football all season but lacked power in attack.

This seems to have been remedied as Monmouth only last week scored a victory over Carthage which defeated Illinois in the first game of the season. Supporters of Illinois are now hoping that the team will go thru the remainder of the season without defeat.

HUGGINS MAY AGREE TO TRADE MEUSEL

From now until the opening of the baseball season trade rumors will come thick and fast. Because of the poor showing of the Yankees in the big series a number of players on that club are certain to be traded over and over again during the winter.

In the early summer of last season the word was passed that a big deal was hanging fire between New York and Chicago. According to the dope New York was to get Collins and Faber for Meusel, Mays, Ward, a couple of others of less note and a wad of money.

The deal fell thru however. It develops that the main reason it "flivvered" was because Manager Huggins of the Yankees refused to part with Bob Meusel. Huggins has always been strong for Meusel despite the fact that he was well aware of Meusel's indifferent tactics.

No one is more familiar with Meusel's great natural ability than Huggins, and he felt sure that big Bob would sooner or later find himself and develop into one of the great stars of the game.

Meusel's failure to run out a hit, sacrifice on two occasions when that was the real play, coupled with several other mental errors, may have caused Huggins to weaken on him. So, after all, the talked-about Chicago deal may become a possibility.

It's worth remembering—vote the Republican ticket straight next Tuesday.

W. AND J. DEFEATS LAFAYETTE 14 TO 13

NEW YORK Nov. 4.—Washington and Jefferson's college football team recruited from a student body of 500 under graduates defeated Lafayette's eleven 14 to 13, this afternoon. The victory was the result of a sensational comeback in the third and fourth periods after Lafayette had taken a lead of 13 points in the first half.

Entering the final period with the score 13 to 7 against them the Presidents blocked a Lafayette punt and recovered out of bounds on their own 45 yard line.

Captain Brenkert faked a forward pass but Erickson ran around in back of the apparent tosser and taking the ball from h's uplited hand sprinted down the field for 50 yards, being forced out of bounds on Lafayette's 10 yard line. Brenkert tossed a forward pass to Spillers who dodged three tackles to score.

Brenkert made a forward pass over the line for the point after touchdown.

WISCONSIN WON FROM MINNESOTA BY SCORE OF 14-0

Gophers Were Unable to Solve the Attack of the Badgers

(By The Associated Press)

MINNEAPOLIS, Nov. 4.—Wisconsin's aerial attack was too much for Minnesota, and the Badgers handed Minnesota its first defeat of the season today 14 to 0. Barr's forward passing with the line plunging of Williams brought Wisconsin's scores, the once Minnesota held for downs on their six yard line, spoiling three Wisconsin passes. The muddy field slowed up play considerably. Taft outpunted Martineau of Minnesota.

The defeated eleven, fighting to the last ounce of its resistance, was so exhausted in the closing minute of play that time out had to be taken after nearly every formation for one or more players.

The game was played on a water soaked field before a homecoming crowd of 25,000 persons, the largest ever to witness a contest on Northwestern field.

The Badger captain and half back, Williams, covered himself with glory in probably one of the greatest exhibitions of broken field running in western conference history.

He tore off the Minnesota tackles like a human tornado, sidestepping, winding and twisting himself loose from tackler after tackler. Martineau, the Gopher flash, thrilled the great throng with numerous runs in the first half but was effectively checked in the latter.

Wisconsin's victory was well deserved. The Gophers were unable to halt her terrific line drives nor break up her forward pass attack which resulted in one of the two touchdowns.

In the first half the teams were evenly matched. Each pushed within scoring distance of the other's goal and each missed a drop kick from the field. Barr, Wisconsin quarterback, made a brilliant run of 55 yards in the second period and with three men for interference would have scored except for a fierce tackle by Martineau who dived over the head of the interference to throw the runner on Minnesota's 15-yard line. In the third period the Badgers took the ball on their 48-yard line, and started the march to their first touchdown. Another pass, Barr to Williams, gained 8 yards and Captain Williams took the ball to Minnesota's 30 yard line on three attacks on the tackles. On the next play, Barr hurled a short pass to Tebell, who raced over the line. Taft kicked goal. In the final period, Wisconsin scored again thru the terrific drives of Captain Williams. The Badger leader three times made down straight thru the line and on a final attempt went off his right tackle 14 yards thru the entire Minnesota team to the goal. Taft kicked goal.

FELL DOWN OFFICE CELLAR WITH DISHES

I. M. Bunce had a narrow escape from serious injury Friday noon, when he stepped into a trap door hole and fell headlong down steep steps of his printing office cellar. He was carrying a tray of dishes from which he had eaten his lunch. The dishes were the only breakage. This in spite of the fact that he wore glasses, that the length of the hole was a foot shorter than Mr. Bunce, and that the steps were almost perpendicular. Mr. Bunce was severely bruised, but was at work Saturday.

DOES SEARCY TELL THE TRUTH?

Jacksonville, Illinois, November 4th, 1932. To Whom It May Concern:

I, John S. Sheppard, do hereby certify that I did not sign an affidavit such as appeared in the political advertisement of Mr. Searcy in the Jacksonville Journal of Saturday, November 4th, 1932. That I did sign an affidavit in regard to circulating the petition of Senator Wheeler, but that purported copy appearing in said advertisement is materially different from the affidavit signed by me.

That if the Sangamon County Central Committee has such an affidavit, purporting to have been signed by me, the same is either a forgery, or in part by the addition of certain matter without my knowledge and consent.

That I was requested to sign an affidavit by three men representing themselves to be United States Revenue men.

That to the best of my knowledge and belief, every name appearing on the petitions circulated by me, is legally on the respective petitions.

MRS. J. V. READ WILL BE BURIED TUESDAY

Death of Former Well Known Resident Took Place at Benton Harbor, Mich.

The funeral of the late Mrs. J. V. Read, a former resident of Jacksonville, will be held Tuesday morning at 10:30 o'clock at the home of her sister, Mrs. Lillian King, 141 Caldwell street. Interment will be made at Diamond Grove cemetery.

News of Mrs. Read's death was received in Jacksonville Saturday morning. The end came at 10 o'clock Friday night at the home of her son, Howard W. Read, in Benton Harbor, Mich. Death followed a long period of illness.

Mrs. Read, who was the daughter of Mr. and Mrs. Abraham C. Woods, was born in this city in 1854. She was educated in the schools of Jacksonville and spent the earlier years of her life here.

Subsequent to her marriage to Mr. Read they continued to make this city their home for a period of years. Mr. Read came to be prominently known as a Jacksonville business man and was proprietor of the hat store which later came into the ownership of Mr. Byrns. Subsequently they moved to Atlanta, Ga., where Mr. Read for a period of years was engaged in religious work. In this undertaking he had the sympathy and co-operation of Mrs. Read, as he had in other religious work.

Mrs. Read thru the greater period of her life was identified with the Baptist church. She was a woman who devoted her time and thought unsparingly to her family and to the church. Hers was an especially gentle spirit and thruout the years she maintained a calmness and control which gave her the admiration of those who knew her.

She is survived by two daughters, Mrs. Thad Morrison and Mrs. J. V. Hedges of Atlanta, Ga., and four sons, Howard W. Read, Benton Harbor; Harlan Eugene Read of St. Louis; Walter L. Read, Biloxi, Miss.; and Ralph W. Read, Buffalo, Wyo. One son, Charles Ernest Read, husband of Mrs. Helen Brown Read, died a number of years ago.

The deceased leaves also two sisters, Mrs. J. W. Crabtree of Lawton, Okla., and Mrs. Lillian W. King of this city.

EIGHT PLANES TO DO STUNTS TODAY

American Legion Flying Circus Will Perform at Nichols Park Today—All Men are Experienced Army Flyers.

At least eight planes and perhaps ten or twelve, will comprise the American Legion air circus at Nichols park today. Five machines arrived Saturday afternoon, and two more are certain to be on hand tomorrow, in addition to the "Bluebird" on exhibition at Central park the last week.

One of the machines is an exact duplicate of the "Orion" which won the recent 54 mile race for civilians at Detroit. The plane came from Stuttgart, Ark., 400 miles, in a little over three hours, to be one of the Jacksonville Legion's squadron.

All the men who will fly today are former mail officers, three of them are aces. Joe Read, John Campbell and Will Robertson. The public may feel perfectly safe with these men turning somersaults over their heads, as accidents are few and far between with men of their experience and caution. The Aeronautical Chamber of Commerce reports only 24 accidents and no deaths in 130,736 flights aggregating almost 3 million miles. Likewise, when the aeronaut jumps from the plane with a parachute from a dizzy height, he has still two chances to land safely if his first parachute fails to open tightly. Like to try it? Take a look and change your mind.

PREDICT CONTROL BY REPUBLICANS

(By The Associated Press)

WASHINGTON, Nov. 4.—A prediction that the Republicans will retain control of the house and increase their present majority in the senate was made tonight in a statement issued by John T. Adams, chairman of the Republican National Committee.

"The Republican majority in the present senate," said Mr. Adams, "is 24. This majority will be increased as the result of the election Tuesday."

"The Republican majority in the next house will be that of a normal Republican year. In 1918 the Republicans won a notable victory as the result of which they controlled the house by a majority of 41."

"The next two years will witness the vigorous prosecution of the progress of reconstruction and public economy which the present administration with the cooperation of the present congress has so well begun."

HAD FINE MEETING AT MEADOWS HOME

A large and enthusiastic Republican meeting was held at the residence of Mr. and Mrs. Marion Meadows on Cox street Saturday night. The Republican county candidates were present and made short addresses. In addition, several others of the company, among them the number of ladies, were called on and all expressed hearty co-operation in working for the Republican party and hope for success for the party next Tuesday.

After the speaking refreshments were served and all joined in singing "America." Announcement was made of the final big Republican rally to be held Monday night at 7:30 o'clock at Armory hall. Mrs. G. W. Montgomery served as chairman of the Saturday night meeting.

HEALTH DEPARTMENT BUSY ALL OVER COUNTY

Work of Morgan County Health Department Reached Various Localities During Month of October—Report of Activities for Month.

The work of the Morgan county health department is constantly widening in its scope, and a report of the department's activities for the month of October, recently compiled by Dr. R. V. Brokaw, health officer, indicates that calls have come from various parts of the county. In each instance conditions have been investigated and action taken to prevent the spread of communicable disease.

The total number of communicable diseases in Jacksonville and Morgan county, reported to the county health officer during the month of October is indicated below:

Chickenpox, 42; diphtheria, 8; erysipelas, 1; pneumonia, 1; scarlet fever, 5; pulmonary tuberculosis, 1; typhoid fever, 3; total, 61.

It should be borne in mind that all these cases of contagious diseases are now existent in the county. A large per cent of them have been cleared up and the families released from quarantine. According to Dr. Brokaw, of the total number of such diseases reported to his office, there now remain only a few scattering cases throughout the county. Chickenpox which was epidemic for a time in the East Liberty neighborhood near Orleans has now subsided and practically all the children are back in school. At Sulphur Springs chickenpox has also been epidemic but is already on the decline and fully under control. All cases showing symptoms have been excluded from the school and the homes of the children quarantined.

With the exception of a few cases in Waverly, there is practically no diphtheria in the county. The typhoid fever epidemic has been relatively light this year, only three new cases occurring during the month of October. Only five cases of scarlet fever were reported to the health officer during the month of October thruout the entire county.

Must Report Cases.

The health department is calling attention to the fact that at this season of the year it is especially important that physicians report all cases of diphtheria and scarlet fever promptly, in order that quarantine may be established early and thus prevent the spread of the contagion. It is also very important that parents watch the throats of their children and call the family physician when there are signs of illness in the child.

Diphtheria can be very readily controlled when antitoxin is administered in the early stages of the disease. Death is far more likely to occur when antitoxin is used several days after the onslaught of the disease. Antitoxin is furnished free of cost by the state department of health and by this means many deaths from diphtheria are prevented. The earlier this is given the less severe will be the disease.

Beside the schools already mentioned, the department has visited the following schools and made investigations: More school near Arnold; Alexander school; Franklin school; Morgan school east of the city; Concord school. Investigations have also been conducted in the Ebenezer and Buckhorn neighborhoods and in the neighborhood about five miles southwest of Murraville.

The summary of the department's activities for the month of October follows:

Number of schools visited . . . 22
Examinations . . . 352
Children excluded . . . 9
Individuals quarantined . . . 69
Chickenpox . . . 28
Scarlet fever . . . 33
Contacts . . . 33
Homes quarantined . . . 24
Home visits . . . 77

MADE ARREST ON LIQUOR CHARGE

State's Attorney Fined Information Against George Thomas—Still Found In Hay Loft.

Another arrest was made on a charge of illicit liquor making Saturday, when Constable Harley Adams took George Thomas into custody. The arrest was made on information filed by State's Attorney Robinson, based on the work of an investigator for his office.

Thomas lives on the Jones farm near Indian Creek about six miles northwest of Jacksonville. The constable found the various pieces of a still which had been recently used buried under the hay in the barn.

The barrels and gasoline stove which had been used in connection with the still were in a room of the house. Some mash was found in one of the barrels. No liquor was secured.

AN OPEN LETTER TO MR. STONE

Hon. Lawrence E. Stone, Springfield, Ill.

Thank you for your kindly letter of yesterday in which you take me to task for supporting Earl B. Searcy. It is unfortunate that you are on record at this hour as defending violators of the liquor laws because that is bound to give people at a distance the impression that you may possibly sympathize with such violators. As a member of the Christian church you may be quite as zealous as any one for the strict enforcement of the law and yet you render yourself liable to be misunderstood. It is unfortunate.

I am going to vote for Mr. Searcy because I believe that he will not be beset by one of the most powerful political machines that has ever been in Illinois, the Thompson - Small faction. He proved this by opposing some of the administration measures at the last session. Every dictate of selfish ambition would have led him to fall in with the big machine and so secure promotion as a Republican. But he stood out so pluckily that the "legislative voters league" says "he made an excellent record."

Now if he is backed by the Sullivan machine, am I to conclude that he has put on a collar? I do not believe it. He is not responsible for any political corruption in Sangamon county and until he is "proven guilty," I

have the right to hope that he will fight corruption. But he is running for the State Senate and not a county office. He has shown backbone in opposing powerful forces in Illinois.

If Earl B. Searcy and Rev. Dr. Rogers are to be managed by any machine, then my vote is worse than wasted. But their whole record says the very contrary. They closest friends say the contrary. Only let men like Searcy and Rogers be defeated this year and you Democrats will have a magnificent opportunity in 1934.

Very sincerely yours,

THOMAS W. SMITH.

MILLIONS OF VOTERS WILL BE INTERESTED IN PROHIBITION QUESTION

Will Come Up in Some Form in Virtually all
Sections of the Country on Next Tuesday
—Illinois and Ohio Submit the Proposi-
tion Direct in the Form of a Referendum

(By The Associated Press)
NEW YORK, Nov. 4.—For millions of voters who will go to the polls next Tuesday to participate in the national contest of ballots, one of the most interesting features will be the question of prohibition, which will come up in different forms in virtually all sections of the country.

Illinois and Ohio appear to be the favorite stamping grounds for the wets. Both states will submit the question of prohibition direct to the people in the form of referendums to amend the state and federal laws in such a manner that they will legalize the manufacture and sale of beer and light wines. The issue also has been reflected in the congressional campaigns in both states. Illinois has 14 candidates for Congress who are prepared to stand or fall with the wets, while seven others are as definitely pledged to the dries. In Ohio 14 candidates are opposed to prohibition and 28 have come out in favor of it.

An analysis of the situation in California, Illinois, Iowa, Kansas, 15 middle-western states how-
ever seems to be more comfort-
ing to the dries than to the wets.
for of some 226 congressional
candidates who have pledged
themselves on the prohibition is-
sue, 175 are avowedly dry and
only 51 wet. In Texas, six are wet
and 24 dry. Every candidate in
Oklahoma's eight districts is dry,
while Kansas, Minnesota, Michi-
gan, North Dakota and Kentucky
ignore the question.

California and Massachusetts
also will submit the wet and dry
issue to the people, altho in forms
less direct than Illinois or Ohio.
In California it appears on the
ballot as a referendum measure
known as the Wright Act, which
would adopt the Volstead Act as a
state law. In Massachusetts the
people will vote on a measure to
formulate state prohibition en-
forcement regulations in har-
mony with the Volstead law.

Prohibition is a secondary is-
sue in several other states, in-
cluding New York and New Jer-
sey, for the Democratic organiza-
tions in both states have inserted
wet plank in their platforms.
Governor Edwards of New Jersey
who has been an uncompromising
opponent of prohibition since
long before the Volstead Act be-
came effective, is running on a
platform containing a plank fa-
voring the return of beer and light
wines, and condemning the prohibi-
tion law as having encouraged
bootlegging. It is pointed out,
however, that the plank is not so
"damp" as the one on which Ed-
wards was elected governor three
years ago. At that time he was
quoted as saying that he "would
make New Jersey as wet as the
Atlantic Ocean."

Senator Frelinghuysen, republic-
an senatorial candidate to suc-
ceed himself, has declared for law
enforcement and the upholding
of the Volstead Act. He stated
in a recent campaign speech that
if the constitution prohibits the
manufacture and sale of intox-
icating beverages, any modifica-
tion that would permit beer and
wines is null and void and uncon-
stitutional, and that as long as
the 18th amendment remains as
part of the constitution, beer and
light wines cannot be brought
back. Those who advocate them,
he added, make of themselves
nullificationists.

In New York state the issue has
been attracting particular at-
tention in the gubernatorial race,
altho from the angle of congress-
ional candidates a substantial ma-
jority are said to be lined up on
the wet side.

In addition to the prohibition
issue, considerable interest has
developed throughout the country
in regard to soldier bonus sen-
timent, which will be expressed by
referendum vote in five states—

day morning at 10 o'clock with
burial in Yatesville cemetery.

The Ashland Women's club met
Thursday afternoon at the Chris-
tian church with Mrs. Nora Bailey
Miss Lois Wiatt and Mrs. Willie
Baxter as hostesses. After a
short business meeting the pro-
gram of the afternoon was open-
ed by a violin and piano number
played by Misses Helen and Clar-
ence Reaick. Mrs. William

Mather Unaded Carries on Hunt for Boy Kid- napped Four Years Ago

RUSSELL SMITH AS HE LOOKED AT THE TIME OF HIS DIS-
APPEARANCE. TO THE RIGHT: ROBERT CHOQUETTE, WHO
WAS MISTAKEN FOR THE MISSING BOY. BELOW: MR. AND
MRS. CLARENCE E. SMITH.

By Dudley Siddall

NEA Staff Writer.

TAUNTON, Mass., Nov. 4.—In
face of a despair that grows deep-
er every day, a mother here keeps
hoping—almost a gainst hope—
that her kidnapped baby will come
back.

More than three years have
passed. But Mrs. Clarence E.
Smith keeps up her daily vigil in
her little bungalow on the edge of
a dense new Enz.

West Dighton, a hamlet nearby.
Unable to afford private detec-
tives or advertising campaigns
for her husband "work" and
among neighboring farmers, Mrs.
Smith has been carrying on her
search alone.

Recently she found a youngster
in Maine. She was sure it was
hers. Her hope was greater than
ever before. But investigation
proved that the boy was Robert
Choquette, son of a wanderer and
now a Massachusetts state charge.

Hope Eternal.
Disappointed more keenly than
ever before, the mother bit her
lips, resumed her search and
waited on patiently.

"One child," she says, "was
found after many years. My Rus-
sell has been gone for less
than four. Some day he will be
restored to us."

"To lose a child by death
causes enough suffering. But the
uncertainty of knowing whether
the child is dead or alive is far
worse."

Young Russell disappeared on
April 12, 1919.

"I came home from work late
in the afternoon," says the father,
"and spoke to the boy as he was

playing with a kitten not a hun-
dred feet from the house."

"Twenty minutes later I called
him to supper. He did not
answer."

Within two hours Taunton po-
lice were on the scene. State po-
lice followed. Boy Scouts and
neighbors searched the woods. All
the searching was to no purpose.
A description of the boy was
broadcast. Age, four years and
one month, tall and slim build,
medium brown hair, left eye bad-
ly crossed, hazel eyes with long
lashes, white even teeth; dressed
in gray-striped overalls, torn
blue coat, blue stocking cap,
brown shoes with rubbers and
brown stockings.

But it was of little avail. The
boy hasn't been seen or heard of
since.

Many Theories Offered.
Various theories have been of-
fered in explanation.

"Wildcats," says one police of-
ficial, "were shot in these woods
soon after Wildcats, however,
would have left a trail of torn
clothing."

"Kidnapers would probably
have written a note asking ran-
som."

"Gypsies might have done it;
but gypsies usually have more
children than they know what to
do with."

"Perhaps a motorist killed the
child while speeding along Provi-
dence turnpike nearby and spirit-
ed away the body to avoid detec-
tion."

Meanwhile the mother keeps
on hoping and drawing nearer to
herself her three year old Helen,
who was born after the boy's dis-
appearance.

neighborhood. We look for an
unusual turnout.

The G. T. S. club had their an-
nual outing in the shape of a
weiner roast. It was held in R.
H. Blimling's timber and was at-
tended by all members and their
families.

Mr. and Mrs. Marshall Stout of
Chapin spent the week end at
their old home, south of Mark-
ham.

WOMAN'S CLUB

FOR CONSTITUTION

Chicago, Ill.—Announcement
has been made that the Chicago
Woman's Club, a leading club for
women in the middle west, has
adopted a resolution endorsing
the proposed new constitution.
This club has numbered among
its active members Frances E.
Willard, Julia Lathrop, Dr. Julia
Holmes Smith and others.

The resolution adopted by the
club follows: "Resolved that the
Chicago Woman's Club places it-
self on record as approving the
proposed new constitution for the
State of Illinois which is to come
before the voters for ratification
on December 12."

In announcing the publication
of a pamphlet containing the text
of the proposed new constitution
with explanatory notes, the Chi-
cago Bureau of Public Efficiency
declared in favor of the constitu-
tion. The Bureau said, however,
that in the pamphlet "the Bureau
has sought not to present argu-
ments either for or against the
ratification, but to set forth the
changes made by the Constitu-
tional Convention, together with
their purpose and effect."

FACTS LEARNED ABOUT YOUNG DENTIST'S DEATH

Coroner's Verdict Indicates Late
Wilbur Spencer Died From
Heart Failure—Other White
Hall News.

White Hall, Nov. 3.—The report
that Wilbur R. Spencer commit-
ted suicide recently in Chicago is
disputed by the report that Henry
Spencer, a brother of the de-
ceased, brought to White Hall this
week. It is the final conclusion
of the coroner's jury, which de-
cided that Mr. Spencer died as a
result of heart rupture. The
heart was exceedingly late when
an examination of the body was
made, and the deceased had made
the remark to members of the
family that he could not survive
many years. These facts were
not known when the dead body
was found in a dental chair in
Chicago.

There is rejoicing in local dairy
circles over the excellent prospect
of restoring the noon train on the
C. and A. to St. Louis by the new
time card that goes into effect on
the 12th. This will also mean
the restoration of the afternoon
train from St. Louis.

Local radio audiences will be
pleased to know that Mrs. A. E.
Meisenbach will sing on Decem-
ber 2nd for the St. Louis Post-
Dispatch broadcasting station in
connection with a concert that
will be outlined in the regular
program. The Houston Post
sends word to A. J. Harding that
they expect to have the services
of Mrs. Hal Higbee at an early
date in a vocal number. This
will be of considerable local in-
terest.

C. H. Evans was up from East
St. Louis Thursday. He says he
will get to White Hall about once
a year in his capacity as repre-
sentative of the by-products de-
partment of Swift and Co. Mr.
Evans' visits will become increas-
ingly social as it becomes more
generally known that he is the
son of a former Presbyterian pas-
tor, Rev. Charles Evans, who serv-
ed the White Hall church in the
early nineties. Rev. Evans died
fifteen years ago, and the widow
makes her home with this son
in East St. Louis. The visitor
states that Harry Briggs, former-
ly of Roodhouse, is now general
manager of Swift and Co. in East
St. Louis.

The residence of William
Whitehead in Roodhouse was de-
stroyed by fire at midnight last
night during the absence of the
family, and the building and con-
tents are practically a total loss.
The origin is unknown. The
daughter, Miss Ruth Whitehead,
is night telephone operator and
she turned in the alarm as soon
as she became aware that it was her
home.

WOMEN VOTERS LEAGUE TO MEET

(By The Associated Press)
CHICAGO—George W. Kirck-
wey of New York, former warden
of Sing Sing, will discuss the
Cook county jail survey, which he
recently directed, in an address
before the convention of the Illi-
nois League of Women Voters
here November 17. The conven-
tion will be in session November
14-17.

Former Governor Edward F.
Dunne, Mrs. Catherine Wauke
McCullough and Morton D. Hull,
all of Chicago, are among the
speakers scheduled by the league
to participate in a forum for the
discussion of the proposed Illi-
nois constitution. This discussion
is to take place on the afternoon
of November 15.

The call for three day meeting
sent by Mrs. Henry W. Cheney,
president, went to branches of the
league, senatorial district com-
mittees and affiliated organiza-
tions from the Chicago headquar-
ters this week. Every section of
the state will be represented by
the women who have enlisted in
the movement for political edu-
cation sponsored by the organiza-
tion.

"During the last two years we
have been finding our own place
in national and local life," said
Mrs. Cheney in defining the pro-
gress made and the purposes of
the convention. "Without over-
lapping the work of other orga-
nizations we endeavor to function
as specialists in citizenship, edu-
cation and legislation."

"Our convention will be a
'working' one so that we can de-
termine the progress made and
map out plans of future activity
for each of our departments. Our
standing committees now cover
every phase of women's political
activity."

The tentative program for the
convention includes a luncheon
with members of the national
board as guests and round table
conferences for the opening day.
A state board meeting will be
held that evening. On Wednes-
day, November 15, there will be
an outline of the work of the
league in the fourth regional dis-
trict, of which Illinois is a part,
by Mrs. William G. Hibbard, of
Wenatcha, the director.

CIVILIZATION AND BUSINESS SUCCESS GO HAND IN HAND

Raymond M. Havens of Kansas City Tells
the Rotarians of Illinois That Unless Bus-
iness Succeeds Modern Civilization Must
Fail—Strong Address Made at Champaign

(By The Associated Press)
CHAMPAIGN, Ill., Nov. 4.—Men may fail, but business
must succeed, or the fabric of modern civilization fails, de-
clared Raymond M. Havens, of Kansas City, Mo., pres-
ident of the Rotary International, speaking before the Illi-
nois Rotary Clubs here today.

"Art, science, education, research, religion itself, the
humanities, flourish by the generous hand of modern busi-
ness," he declared. "But every fine thing in life which is
sustained by money, is hypocrisy, if the source of the money
is corrupt."

"A demand for a code of honor in business was charac-
teristic of men who felt a natural craving to make their
transactions harmonize with their social ethics as citizens,
neighbors, friends, churchmen, fathers. To these men
the cynical doctrine expressed in the phrase 'business is
business' was an offense and a humiliation."

"There is honorable profit and based on telling the truth. Low
costs must be the result of bet-
ter thinking and doing. The re-
wards of industry, the exchange
and distribution of the products
of the soil, greater knowledge,
higher standards of living—name
what you will—business is the
sustaining force."

"Every human phase runs to
extremes and the so-called suc-
cessful man of great wealth, who
does not know what to do with it,
has yielded rich material to play-
wrights and novelists. But it is
misbranded to call a man suc-
cessful simply because he has great
wealth. He is successful in get-
ting rich, that is all."

"The more brains and skill re-
quired for business success, the
better. What was the evil in-
fluence of the war madness on
trade? Wasn't it a loss of fineness
of spirit, as much as breakdown
of cost control and quality stand-
ards, until contracts became
scraps of paper?"

"The business world is beating
back and will be better for the
lessons. Salesmanship must be
exclusively for passengers."

BETTER STEAMER SERVICE FOR NAGASAKI

Nagasaki, Japan—Faster com-
munication between Japan and
the Asiatic mainland is the latest
move in the Japanese plans to en-
able them to compete more suc-
cessfully for trade on this side of
the Pacific. Following announce-
ment of a faster service from the
industrial centers to Korea and
the establishment of a railway
ferry between the main island
and the Kinkaido, comes the
news that from January, next, the
time between this port and Shang-
hai is to be cut from 40 to about
27 hours. This is to be accom-
plished by two 18 knots steamers
exclusively for passengers.

Just An Idea of Ours

Everybody spends some money
for needed things of life.

But, everybody does not get
what he thinks he bought.

We have an idea that if you
people know that you can
get a certain thing at a
certain place (guaranteed)
you will back us up.

Therefore—
And speaking of a suit or
overcoat that you may be
needing at this time—
We are offering you a wide
choice of materials, a finely
tailored to measure garment,
with the "guarantee" you'll ap-
preciate, at the lowest price
quoted this year, and at
a price which we know is low-
er than we will be able to name
later on in the season when we
have to go into the market
for new goods.

Come in and let's
talk it over.

A Party Betrayed

This is the first true statement uttered by Earl B. Searcy during this campaign.

Searcy and the Sullivan vice organization in Sangamon County have betrayed the Republican party and turned it over to the bootleggers, the moonshiners, the scarlet women, the highwaymen and the automobile thief. The Anti-Saloon League refuses to indorse Searcy because he is indorsed by the wet organization.

They charge him with being against the Prohibition Commissioner Bill because it would destroy the wet machine supporting him.

He instructs his friends to vote no on the light wine and beer proposition. The Anti-Saloon League instructs their friends not to vote on this issue. Mr. Searcy is playing into the hands of the wets. He double-crossed the farmers during the last session after promising to support their grain bills. He is supported by the wet Democrats in Morgan and Sangamon Counties and objects to the decent element in the Democratic Party supporting me. His wet machine voted four thousand Democrats in the April Primaries to defeat me. Hundreds of the illegal voters were registered from hotels and rooming houses in the city of Springfield and voted in the primaries for Searcy. In the Red Light District in one precinct the bootleggers and prostitutes gave Mr. Searcy a majority of over three hundred. I received forty-eight votes in this precinct. If anyone doubts who is backing Mr. Searcy in Sangamon County at the primary election returns on April 11th will show that he ran the strongest in the vice districts.

Mr. Searcy charges fraud in securing names for my petitions as a candidate on the Law and Order Ticket. Of this charge I have no personal knowledge. However, I had enough legal signatures to have my name certified.

Searcy is the fake dry candidate of the Sullivan-Mester wet organization. He is the rubber stamp candidate for Senator for the vice machine in Sangamon County. He has no platform because he does not yet know if elected what the Sullivan-Mester vice organization will tell him to do.

I am just as strong for Civil Service as Mr. Searcy and the machine backing Mr. Searcy has done more to destroy Civil Service in this County than any individual.

If I am elected Senator I pledge to carry out the good roads program in Morgan County and have been promised the assistance of the Governor so to do.

On account of his attitude toward the State Administration Mr. Searcy will be unable to secure any favors for his Senatorial District.

If Mr. Searcy wishes to discuss the issues involved in this campaign I will be very glad to meet him at the Court House at Jacksonville on Monday night, November 6th.

Searcy is beaten in Morgan County and he knows it, hence his mud-slinging tactics in the closing hours of the campaign.

PRESENT "CAR SHORTAGE" THE LARGEST IN HISTORY

The Railway Age announces the significant fact that "the net 'car shortage' of 152,034 reported by the Car Service Division of the American Railway Association on October 15 the largest ever reported in history. The largest net shortages reported in earlier years," it adds, "were as follows:

"On February 6, 1907, 137,847.
"On May 1, 1917, 143,443.
"On March 1, 1918, 138,102.
"On September 1, 1920, 146,070."

The Railway Age urges railways and shippers to make greater efforts to get more service from existing facilities, but says that "in the efforts to secure the greatest possible amount of service from the facilities already available, the one most important fact which the existing transportation situation emphasizes should never be overlooked. This is that for the first time in its history the country is confronted at the very beginning of a period of business revival not only with a shortage of transportation, but with the most acute shortage that ever existed. There is only one real remedy for this situation, and this is the expansion of railroad facilities. Whether they will be adequately expanded or not will depend upon future government regulation of railways. The public will determine what regulation will be in the future. Therefore, whether the existing shortage of transportation will be remedied, or become more acute and serious will be determined by the public."

Discussing the question whether in the months immediately ahead the car shortage will decline or increase, the Railway Age reaches the conclusion that it will increase.

"There is a prevalent belief," says the Railway Age, "that the largest car shortages usually have been reported in the early fall or winter. The foregoing figures show that this has not been the case. The general tendency is for the largest freight business to come in the latter months of the year, but the time when the largest amount of freight actually has been moved and the largest shortages of cars have come have been determined by whether the tendency of general business has been upward or downward. In 1906 the tendency was one of increasing activity of general business and this tendency caused the freight movement to continue so heavy that the peak of the car shortage in that period was reached in the spring of 1907. In 1916 the tendency of general business was to increase and the peak of the car shortage was reached in the spring of 1917. The same tendency of general business prevailed in 1917, while the severe winter of 1917-1918 seriously interfered with the movement of freight. In consequence, the next peak of the car shortage was reached the next spring. The peak of the car shortage in 1919 was reached in October, because late in 1918 and early in 1919 general business activity declined. The largest volume of freight movement and the peak of the car shortage in 1920 were attained in August, because general business activity was at its height and tending to decline, and in the preceding spring the movement of freight had been seriously interfered with by the switchmen's strike.

"What do these facts indicate as to the transportation situation which is likely to prevail this winter and next spring? The conclusion suggested is that the present shortage of cars will reach its height in the spring of 1923, as it did in the spring of 1907, 1917 and 1918. "The United States is a growing country. Its periods of depression always have been followed by periods of revival and expansion

Editor Jacksonville Journal,

Dear Sir:—

After careful investigation following a political controversy relative to the candidacy of Senator John A. Wheeler in the April Primary, State Superintendent of the Anti-Saloon League F. Scott McBride, who has been in close touch with the political affairs of Illinois for more than ten years, together with the Headquarters committee, unanimously endorsed Senator John A. Wheeler, Law and Order candidate for re-election. Senator Wheeler has a good record for law enforcement, fought by the wet faction on account of this record, entitled to dry vote on his record and leadership.

The Anti-Saloon League urge every dry voter to support the League's endorsed candidates. Dr. John A. Wheeler stands square against the nullification of the United States Constitution.

Yours for law enforcement,

GEORGE H. YULE.

Supt. Central District.

For State Senator

My Appeal to Voters

I have lived in the 45th Senatorial District for more than fourteen years except for eleven months which I spent with our National Army as an enlisted man in France, in 1918-1919.

My first experience with political office came two years ago when I ran for Representative. As a member of the last General Assembly, I supported measures that farmer members of the House and agricultural societies declared were for the best interests of Agriculture; I voted against tearing down our civil service system; I voted against many measures that would have created bureaus, jobs and positions, all aimed to increase taxes; I tried to vote fairly with industrial and labor interests. My main concern, along with safeguarding basic agricultural policies, was protection of the voters of this district against soaring taxes, and a frenzied attempt to add bureaus and commissions, which Illinois has too many of at the present time. If I am elected to the Senate, I shall continue this policy.

My opponents in this race are two men, both running in the interests of the Democratic party. The regular Democratic nominee has lived in this district seven years. In direct violation of instructions given him by his party organization, he is attempting to curry favor from Republicans by a false position. The other candidate is the present state senator from this district, a man whom the Republican party has honored for twenty-five years, who was defeated in a party vote last April for re-nomination by the decisive, official majority of 2,605; and who is seeking now, under the label of "Law and Order," through an independent candidacy, to help turn this district over to the Democratic party. His position is known through support he is attempting to give the Democratic ticket in Sangamon, his home county.

Such is the character of my opposition. My appeal, in this campaign, is to 100 per cent Americans of this district who believe in good sportsmanship and fair play. I have always held to the belief that a political candidate, and particularly one whom a party has signally honored, ought to abide by a party primary decision, or get out of politics. When a candidate, fairly and squarely defeated, attempts to lead a fragment of his party off in a wild goose chase, under false colors, for purely selfish and personal reasons, there is something wrong with that candidate, not with the party.

I believe in decency in political as well as private life. In proof of that, I offer for the scrutiny of voters my campaign methods this fall. It is true that I have not gone abroad making promises, and guaranteeing new concrete roads from one end of this district to the other. In the first place, no senator, nor house member, nor Governor, by himself, can deliver on such promises. In the second place, I have never believed in idle promises as a means of vote-catching.

So far as hard roads are concerned, as well as good dirt and oil roads, I shall forever support the construction of as great a mileage as we taxpayers can pay for without undue burden. Public improvements are as necessary as private. The only limitation is the tax-payers' ability to foot the bill.

So far as moral questions are concerned, my record as a first term House member was 100 per cent. I haven't changed.

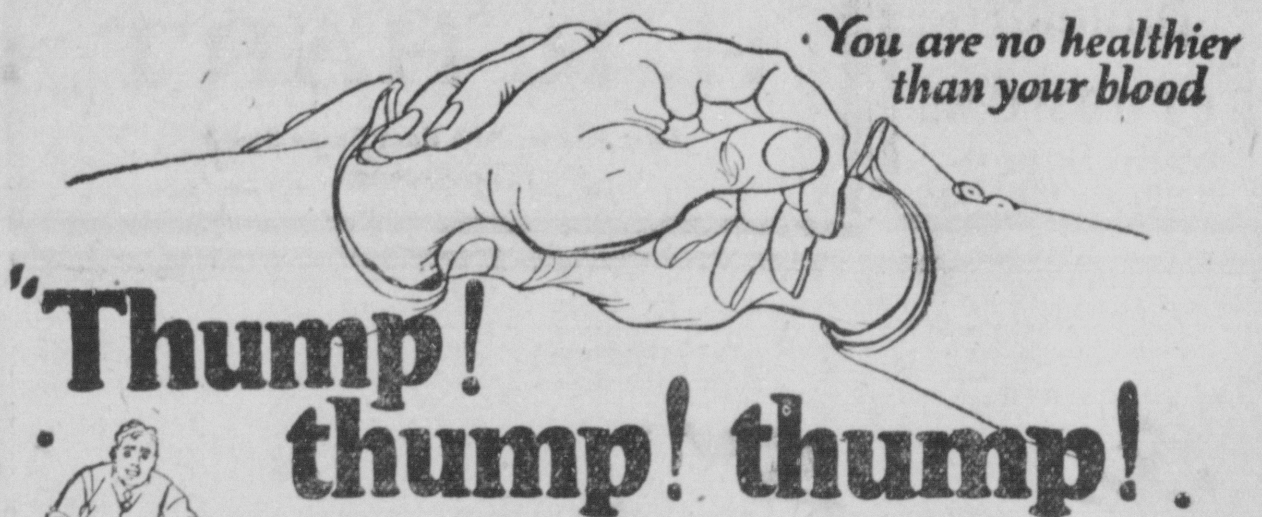

Next Tuesday is Election Day. If you can endorse my views, I will appreciate your support at the polls. If elected, I shall regard it as my duty to represent, and fight for the interests of the citizens of Morgan and Sangamon Counties. I believe in the integrity of this district's citizenship.

Sincerely Yours,

Earl B. Searcy,

Republican Candidate for State Senator,
45th Senatorial District

WOMAN'S COLLEGE NOTES

President Harker is on his way to New York City, where he will attend the semi-annual meeting of the Board of Education of the Methodist church. He will stop over in Cleveland to meet with the Cleveland Society of that place.

On Friday, November 3rd, the Young Woman's Christian Association held their annual drive for the budget of the Association. Miss Dow of the State Organization was here to assist the Association in putting on and carrying to a successful termination, the program.

The usual impressive ceremonies of the Senior Recognition Day were held Friday morning at the chapel hour. Part of the Sophomore class were used as the escorts of the Seniors while the faculty appeared in full academic costume. Miss Horsburgh gave a special number on the violin and this was followed by an address by President Harker on the meaning of Recognition Day.

The Illinois gave a very clever stunt advertising the merits of the new publication. The Junior class has the full responsibility in this, and they are confidently expecting to put out the best annual that has ever appeared here at the college.

Mr. A. E. Gilpin, representing the American Book Company, was in the city Thursday visiting his daughter Miss Maurine of the Class of 1925.

Interesting word comes from Miss Clara Kelly of the Class of 1914. She is now at the University of Illinois doing graduate work, and will receive her Master's Degree in June next. Miss Kelly has made a most excellent record in her profession as a teacher. Most of the time she has been located in Cape Girardeau, Mo., where she has been in the High School of that city.

Miss Esther Davis has returned after several days work in Chicago; Hoopeson and Danville in the interest of the Alumnae Association. Miss Miriam McOmber is at the college for a few days after several weeks work in and around Springfield in the interest of the Alumnae Association.

The teams are being picked out for the Hockey tournament, in preparation for the championship games which will be played early Thanksgiving morning. The final games of the tennis tournament will be played this coming week. A more extended account of the tennis tournament will appear in a later issue of this paper.

Miss Grace Tickle and Miss Helen Merriman of the faculty, have returned from the special Vocational Conference of the Home Economics Teachers held in Decatur last week. While in the city they also attended the meeting of the State Association of Home Economics Teachers.

The Wallace Orchards are now offering Gano and Ben Davis apples on the trees to those who want them at from \$1 to \$3 per tree. Trees will run from 5 to 15 bushels to the tree. Open Sundays. Plenty of good sweet cider. Bring your own container. WALLACE ORCHARD CO. Chapin, Ill.

Conservatory Notes

There will be a Students' Recital next Thursday afternoon, November 9th at four o'clock. The public is cordially invited.

An Ensemble Recital will be given soon by Mr. Kritch, Miss Helene Sorrells and Miss Eloise Capps, violinists, assisted by Miss Inez Pires, pianist. The date will be announced later.

Messrs. Kritch, Munger and Lovejoy, Mrs. Foreman, Misses Pires, Schweke, Armstrong and Sorrells of the Conservatory faculty, attended the Helfetz recital in Springfield on Friday, November 3rd.

The Illinois College Chorus will begin work on the comic opera, "Robin Hood" of DeKoven, soon. The opera will be presented with scenery and costume, in the early spring, under Mr. Lovejoy's direction.

Mr. Lovejoy sang some solos, accompanied by Willard Wesner, at the Elks' Ball given last Thursday evening.

Phi Omega will hold its next meeting on Wednesday evening, Nov. 8th, at eight o'clock, after orchestra rehearsal.

Miss Ruth Melba Armstrong sang accompanied by Miss Virginia Spink, at a meeting of the Rotary Club in the Pacific Hotel on Friday, Nov. 3.

COLLEGE OF MUSIC NOTES

Andrey Kling, pupil of Miss Horsburgh, will play a solo at Centenary church on Sunday, November 5.

Madame Colard and Miss Horsburgh will give a special number for voice and violin at the evening service held on Sunday at the Christian church.

Miss Kirby was soloist at the Junior and Senior High School assemblies on Thursday morning.

The junior pupils of Miss Sapio and Miss Horsburgh will be entertained at an informal party at their residence, 805 W. North St., on Saturday, November 9, at 3:30 p. m.

Maurice Dumesnil, the French pianist, who is to be heard in a return engagement on the evening of Nov. 13 under the auspices of the I. W. C.

Artists Series, in one of the greatest French pianists and has won the highest praise anyone could be accorded in Europe. In the concert field of Latin America, no pianist is better known and more popular. It was he who first made instrumental concerts appeal to the public and paved the way for those who followed him. Critics claim him the most modern exponent of the keyboard without being an extremist. He plays nothing that is not true music and he is not a modernist to the extent of forgetting the classics. He plays Chopin delightfully and is much admired for his interpretation of Mozart.

Mr. Dumesnil was reengaged to appear in Jacksonville at the request of practically everyone who heard his recital last fall and his return is looked forward to with great expectation.

ILLINOIS COLLEGE NOTES

It is planned to have an Illinois college reunion banquet Friday evening, November 24th, at Champaign, for all Illinois college graduates and former students who are in attendance at the State High School conference to be held in that city. Teachers desiring to make reservations should write to Miss Helen Taylor, 911 W. High street, Urbana, Illinois.

Bernard Frazer has resigned as editor-in-chief of the Rig Veda and Kathleen Emery has been elected to fill the vacancy.

Several new members were taken in at the French club last Thursday evening. The president of the club is Jeanne Mayer, one of the French girls at Illinois college. The club plans to give several short plays this winter.

The grades for the first six weeks are in, and all freshmen are having individual conferences with the dean regarding their work.

Mr. and Mrs. Harmon of the college faculty have taken rooms for the winter at the home of Mrs. Woodman at 1047 W. State St.

Dr. Cooper of the Madura Mission in India, spoke to the college students at the chapel exercises Monday morning.

The annual leaf raking festival will be held during the coming week.

This is looked forward to with great interest by the freshmen, because at that time they are allowed to discard their green caps and arm bands.

Gladys Roberts has returned to the college after an illness of several weeks. Miss Roberts entered Illinois college from Pleasant Hill this year.

Have You Surplus Money to Invest?

Does It Puzzle You to Know How to Invest It With Safety?

Here Are Some Good Things for You to Think About—

1. Does my banker think it a safe investment?
2. Will he lend me money on the investment after purchase?
3. Is the personnel of the company as good as its product?
4. How much of my money is being spent by the promoters for overhead and promotion expenses?
5. Is there a real demand for this product?
6. Can I resell my stock when I need to?

My Answer

Senator Wheeler seems again to be beside himself.

My endorsements this fall are as follows:

1st—By the Republican party, which nominated me in April by the official majority throughout the district of 2,605.

2nd—By the Legislative Voters' League, a non-partisan, non-political organization headed by Clifford Barnes, a former Jacksonville educator, in the following language:

"Searcy is recommended for the Senate. He served one term in the House, where he showed decided ability and independence; a service man of the ranks; was particularly active in obtaining legislation to provide for the care of the children of former soldiers; made an excellent record. Merits popular support on account of valuable service in the legislature. One of those Republicans who revolted against improper methods used to bring about the passage of objectionable bills. Fearlessness and capacity shown by Mr. Searcy in fighting such measures should not be forgotten and should insure his re-election in office."

After the last legislative session, F. Scott McBride declared that I had had a 100% record in the House.

When Mr. Wheeler attempts again to assassinate personal character, he is treading on dangerous ground. My entire reply to his tirade under the caption, "A Party Betrayed," is that I don't believe I have lived 35 years soberly, as honestly as I know how, and fairly industriously, for nothing. If Mr. Wheeler possesses such superior personal perfection, such holy alliances, such a supreme confidence of the public, such single-handed ability to obtain favors, then he is to be congratulated. At home, where we know Mr. Wheeler best, we are not so familiar with the traits he advertises so boisterously.

I am perfectly willing to let the voters of this district decide this senatorial issue. I shall be satisfied with whatever verdict is returned.

If you believe in me, my voting friends, I shall be glad to have your support at the polls next Tuesday.

The Elections and Business

WELLESLEY HILLS, Mass., Nov. 4.—In our interview this week with Roger W. Babson, the question of what effect the Congressional elections will have upon business, brought from him the following statement:

"I see one interesting issue in the Congressional elections, namely, the number of new radical members sent to Congress. Those of us in the East do not understand the viewpoint of our Western people, hence few are awake to the great change which is coming about in our political line up. Throughout the present generation, the contest has been between the Republicans and Democrats. The days of this alignment, however, are numbered. Both of the old parties have suffered extensive changes. At least by 1928, and perhaps in 1924, a real contest may be waged between the so-called Conservatives on the one side, and the so-called Radicals on the other."

"By 'Radical' I do not refer to the I. W. W.'s or any group commonly known as Bolsheviks. The new Radical party will be more like the Bull Moose party of 1912. The Conservative group will represent a combination of both Republicans and Democrats who are opposed to the extreme measures of the other group. The elections tomorrow will serve to show to what extent this new alignment is taking charge."

"As to the immediate effects of the elections they should not be important unless the Republican majority in Congress should be overturned. I do not, however, expect such an event."

"After all," continued Mr. Babson, "most of us business men worry a great deal more over policies than we should. Everybody today is looking to Washington for a present. Nineteen of all the important bills before Congress this year were designed to help some one group—usually at the expense of the others. Farmer and labor demands, railroad financing, state roads, soldiers' bonus and the tariff fight are a few examples. This stampede to the Government for assistance is one of the pestilences which always follow a war. The same mania developed after the Civil War. From 1865 to 1870 bankers and business men spent more energy lobbying in Congress than developing their own business. The Government must mix into business in war time; it is hard to get out of it after the war is over. Eventually people will realize that you can't take out of the Government more than you put into it. For the present, however, the situation presents a serious danger—not to those who fail to get assistance, but to those who succeed."

"Any growth founded upon so flimsy a basis as government favor must be precarious. The industries and the individual companies which are really good investments will be able to fight their way thru without having to depend upon exorbitant tariffs or government capital. They may have hard sledding for a while, but when the depression is over they will control the field. While others are building up influence at Washington, they are building organizations at home. At the time it may seem as if the Congress which get the most protection or assistance from Washington are the winners, but their advantage is only temporary. Instead of trying to pick the companies which get the most assistance from the Government, investors should look for the companies which can get along with the least."

"This factor marks a sharp distinction between the railroads today. Under the Esch-Cummings law the roads have the privilege of calling upon the Government for assistance in their financing. Many investors have looked upon this as a favorable argument. You will notice, however, that the railroads which stand best on the quotation boards have very few 'government obligations' in their balance sheets. The only kind of a keg to put your money into is one that will stand on its own bottom. Perhaps the others will come on all right but the railroads in which I am interested are now adopting business methods instead of depending upon Government aid. In choosing railroad securities, my advice is to let someone else speculate as to what the Government will or won't do."

"The same applies to industrial securities. At the moment every one is much exercised over the new tariff rates. Some industries have secured greater protection than others. In the long run, however, the business which receives the greatest protection may not be the best investment. If its operating costs and overhead charges are increased on no safer basis than legislation, it is not a business in which to risk your money. Business concerns, like individuals get their strength from fighting their own battles. Too much protection is far more dangerous than too little."

"Remember that Congress is governed by the law of action and reaction. At present, legislation is running toward Government subsidies and support. The further this movement goes, however, the more drastic will be the subsequent action. The more Congress does for individual business interests today, the more other Congress will take away from these interests later. Hence, when looking for an industry in which to invest your money, pick the one which will have least to fear from the caprice of politics. Legislation may give a temporary boost to securities, but the long swing upward must be based upon something more substantial."

"Any concern which is prospering mainly by the grace of Congress is an unsafe risk. The wisest concerns today are devoting their energy to building up their own organizations."

The Business Index this week dropped off a point. It now stands at about 5 per cent below normal.

Fine Closed Cars With Fine Car Equipment

Coupe \$1445—Sedan \$1465 F. O. B. Detroit Tax Extra

It is now very generally conceded that the mechanical foundation of Jewett cars is one of the great engineering triumphs of the year. There could be no more perfect six-cylinder motor. There could be no stronger or more efficient chassis from radiator to rear axle.

But inspect the Sedan and Coupe and you will make another startling discovery. Despite the extremely low prices, you will find yourself viewing the finest of body work, upholstery and general appointments. Then, and then only, you will appreciate that these are fine cars that set an entirely new standard of value. Here there is no compromise.

Study the list of Jewett features at the right. They tell a story of refinement that has never been equalled in the popular priced field.

The complete Paige-Jewett line of six-cylinder passenger cars offers a selection of thirteen models priced from \$995 to \$3350. The complete line of Paige trucks meets every hauling need. They are sold and serviced by Paige Dealers everywhere.

ANNUAL RECEPTION
AT CHAPIN SCHOOL

Junior-Senior Classes Held Annual Reception in Grade School Assembly—Other Chapin News Items of Interest.

Chapin, Nov. 4.—The annual high school reception was given by the Junior-Senior classes at the grade school assembly Friday evening. The Misses Myra Bobbitt and Louise Cowdin had the hall tastefully decorated in orange and black so that the Halloween spirit prevailed.

Miss Doris Anderson, chairman of the entertainment committee, very ably provided an evening of merrymaking joviality. About seventy students enjoyed the festivities of the evening not the least of which was the abundance of delicious refreshments provided under the thoughtful direction of the Misses Marie Grady, Nona Nienheiser, and Lee Lear.

The high school basketball team played its first game Friday afternoon at Meredosia. Altho the local aggregation lost with a score of 22 to 24 the boys are in high spirits and are looking forward to

the return game here November 17. A fine sportsman-like spirit prevailed throughout Friday's game.

The Pastoral Helpers of the Christian church met with Mrs. W. W. Woodward Thursday afternoon with twenty members and one guest present. The meeting was opened by singing "Blest Be the Tie" and prayer by Mrs. Sarah Heiser. Roll call was answered by "Things We Are Thankful For." Mrs. Fred Eilers gave a reading from Edgar Guest. The president, Mrs. Frank Blair, named the committees for the annual bazaar and chicken pie supper to be held Dec. 14th. Chairman dinner committee, Mrs. Fred Eilers; Chairman table committee, Mrs. B. J. Taylor; Chairman fish pond committee, Mrs. F. M. Crabtree; Pop corn and other refreshments, Mrs. Sallie Sullivan; Advertising committee, Mrs. Harry Stewart, Mrs. Opal Blair. A social hour followed with a contest and serving of refreshments. The meeting closed by repeating the 34th Psalm.

Mrs. William Fisher and Mrs. E. E. Sidles, precinct chairmen of the Democratic women voters were hostesses Friday afternoon at the home of Mrs. Fisher to the Democrat women of their precincts. A party came down from Jacksonville to assist Mrs. Henry English of the state organization gave an address; Mrs. Alex Platt of the county organization presided. There were also Mrs. W. C. Brune, secretary of the county organization; Mrs. Paul Thompson, Mrs. G. E. Kopperl, Mrs. Fred Bolton and Mrs. J. H. Sperry, H. H. Vasconcellos, D. J. Staley and William Cleary were guests and gave brief talks. Dainty refreshments were served. Assisting the hostesses were: Mrs. L. S. Hess, Mrs. F. M. Roberts and Mrs. E. H. Nienheiser.

Mr. and Mrs. Russell Hull of Jacksonville spent Friday with Mr. and Mrs. Grover Smith.

Mr. and Mrs. Herbert Mawson of Jacksonville will spend Sunday with Mrs. Earl Fox.

Miss Esther Moody spent Saturday in Jacksonville.

Mrs. Weeks of the grade school and son Clifford spent the weekend at their home in Arenzville.

Miss Dorothy Kennedy of the high school faculty visited friends in Jacksonville Saturday.

An unusually good time was spent with Mrs. C. F. Duckett at her home Monday evening when the Monday Evening club met for their weekly meeting. All the members were present. The guests were met at the door with an electric lighted ghost, and a comic masquerade figure greeted them on entering. The evening was passed in playing Ro-k-B, J. Taylor won high score and Fred Muntman low score. At a late hour sandwiches, pickles, pumpkin pie, and coffee were served in keeping with Halloween, as well as were the home decorations. The club meets with Mrs. Fred Eiler next week.

In 1909, the Osaka Shosen Kaisha opened a new line to Tacoma and in January 1910, the Toko Kisen Kasha reopened its line to South America, suspended since 1908 under an annual subsidy of 600,000 yen. In 1912 the Nanyo Kisen opened a new line to Sourabaya under an annual subsidy of 150,000 yen.

JAPAN THIRD IN
MERCHANT SHIPPING

Is Surpassed Only by United Kingdom and United States—European War Gave Country Great Impetus.

Tokio—Discussing the figures of Lloyd's Shipping register showing that in the amount of mercantile marine tonnage Japan is third among the nations, being surpassed only by the United Kingdom and the United States, the Oriental Economist, a Japanese commercial monthly, says the chief causes for the Empire's development in this line have been the protection and assistance afforded by the government and the three wars in which Japan has been engaged in the last 25 years.

"The protection of the Government to the shipping trade of the country dates as far back as 1872," says the paper. "In 1875 the original company was dissolved and a new one established. The Kyodo Unyu Kaisha was established in 1865 and in the same year the two companies were amalgamated and the present Nippon Yusen Kaisha came in to existence. The government guaranteed the new company payment of 8 percent dividend. This arrangement was later changed into the grant of a fixed amount of annual subsidy.

"The termination of the Russo-Japanese war saw further development of Japan's shipping trade and various new lines were open-

ed to many ports in China, Korea and in Eastern Russia. In 1909, the Osaka Shosen Kaisha opened a new line to Tacoma and in January 1910, the Toko Kisen Kasha reopened its line to South America, suspended since 1908 under an annual subsidy of 600,000 yen. In 1912 the Nanyo Kisen opened a new line to Sourabaya under an annual subsidy of 150,000 yen.

"That the European war gave a great impetus to Japan's shipping trade will be still in the memory of all. Another important factor has been the plentiful supply of cheap labor in the shape of seamen and of fuel. The course of events in recent years, however, has shown that these factors in favor of Japan have been disappearing and Japan's shipping trade in common with many other industries is confronted with a serious crisis.

"Considering that Japanese ships require larger number of men in the handling the comparative lowness of the efficiency of Japanese seamen will be clear altho their wages are comparatively high."

BRONZE STATUE OF
ROOSEVELT READY

Will be Unveiled at Portland, Oregon November 11—Message from Harding to be Read.

PORTLAND, Ore. — "Theodore Roosevelt, Roughrider" is the inscription on a heroic equestrian statue of the former president, to be unveiled here Armistice Day with ceremonies in which many thousands of persons are to participate.

The statue, by A. Phimister Proctor, was presented to the City of Portland by Henry Waldo Coe, a life-long friend of Theodore Roosevelt, and it is to be dedicated to the children of America. Approximately 25,000 school children of the city are to take a prominent part in the exercises. The morning program is to be devoted to the children's part of the ceremonies, with a parade, each child dropping a rose, Portland's emblem, at the foot of the statue.

There will be a military parade in the afternoon, with the regular army, the navy, the marines, Oregon national guard, the Grand Army of the Republic, Spanish-American War Veterans, American Legion, Boy Scouts and Sons of the American Revolution represented. Counties of Oregon and other states are to be represented by committees.

Dedicatory ceremonies will be held at the unveiling, and a message from President Warren G. Harding is to be read.

The statue is located in a park square near the heart of the city. The bronze figure stands more than 13 feet in height placed on a pedestal of granite eight feet high.

The Roosevelt family has taken keen interest in the work of Proctor, the sculptor, and Mrs. Roosevelt provided him with the clothing and accoutrements, including the sidearms which were worn by Col. Roosevelt in the battle of San Juan hill. The army selected as a model a soldier of the same girth, height and weight as Colonel Roosevelt at the time he was a rough rider. After a long search for a suitable horse one was found at Palo Alto, owned by a girl student at Stanford university, and upon this horse, dressed as Roosevelt, the soldier posed daily for many months. Members of the Roosevelt family have pronounced their approval of the work of art.

ONLY BEST FOR
JAPANESE ARMY

Tokio—The reduction in the army will enable the recruiting sergeant to choose when this year's conscripts come before them for examination and only men who heretofore have been classed A physically will be taken for the army. The training will be more intensive for the same amount of work will be done in 22 months. General Yamanashi, minister of war, replying to the

agitation for a reduction of the period of 16 months said if this was adopted the war office would have to abolish all holidays, including Sundays. At present the recruits have many days off, including occasional fortnights to assist their parents in their business.

Wets and Drys Issue Statements

CHICAGO, Nov. 5.—(By Associated Press.)—If the wets claim an advantage from the results of the Illinois poll of November 7, on beer and wine, the Anti-Saloon league will submit two years hence another referendum without the "vague and contradictory wording" imputed by the league to the present referendum.

Scott McBride, state superintendent of the Anti-Saloon league of Illinois, announced tonight. The league is circulating literature reiterating its advice to drys to refrain from voting on the present referendum.

"The wets are seeking to bring back the liquor traffic without amending the constitution," said the message printed on the league's endorsement of dry candidates for public office.

"If patriotic citizens accept the beer and wine proposal by voting on the question they will reverse the principle established by the civil war and strike a blow at constitutional self-government defended in the world war," said a circular issued by the league.

The circular contended that the beer and wine referendum is a trap laid by the wets, and that participation in it would be a step toward "local and sectional nullification of the eighteenth amendment while it is still a part of the constitution." It added, "regardless of any state-wide result the wets would maintain that legislators and enforcement officials in any section, district, county, city or village are authorized by local vote to disregard the eighteenth amendment. The eighteenth amendment must be enforced or repealed."

"That's the sweet of them," commented Harry De Joannis, state director of the Illinois Association Opposed to Prohibition. "If Mr. McBride says the eighteenth amendment must be enforced or repealed he is becoming educated. But he is talking about the eighteenth amendment, with which we are not concerned. We are concerned only with the Volstead act."

Differ on Interpretation. Mr. McBride and Mr. DeJoannis differ touching congressional power to relax the legal limits of alcoholic content. Mr. De Joannis contends that while the eighteenth amendment outlaws "intoxicating beverages," congress has the power to fix the legal limits of alcoholic content. He holds that congress should ascertain through a committee which should consult vintners and brewers, the lowest alcoholic content necessary to safeguard high-grade beer and wine, and should then fix new alcoholic limits. The

best of modern plays, well and properly acted, in towns and cities remote from the large production centers.

Messrs. Clarke and Ross as their most important production this season, the appearance of Mercedes Desmore and Hilda England and their associated players in a festival of modern plays.

Miss Desmore is a talented young English actress of great charm and beauty. She has played in London with such actors as Sir Beerbom Tree, and with Ellen Terry, and in America with Margaret Illington, Lou Tellegen and John and Lionel Barrymore.

Miss England is one of the few great emotional actresses of the world. She began her very brilliant stage career at the Royal Theater of Stockholm, Sweden, where she was especially selected by Henrik Ibsen to create the parts of Ase, Regina, and Gerda in the Swedish premier productions of "Peer Gyn." "Ghosts," and "Brand." Aside from her remarkable career at the Royal Theater, Miss England has been starred in Petrograd, London, New York, and Philadelphia.

COLLEGE STUDENT TODAY MORE RESOURCEFUL. Urbana, Ill.—The college student of today who is without money is more resourceful than the college boy of thirty-five years ago, according to T. A. Clark, dean of men at the University of Illinois. Then, the boy who had almost no money was content to endure privations, and cook his own meals for seventy-five cents a week. The same man would now sell neckties, perhaps, and earn \$30 a week, with which he can live comfortably, the dean said.

"American boys are wiser, but their morals are not worse than those of the student of thirty-five years ago," the dean affirmed at a luncheon of the Urbana Chamber of Commerce. "In those days the students had less money, and there were fewer causes for expensiveness."

Murrayville shoppers in Jacksonville Saturday included Mrs. A. A. West, Mrs. Albert Hayes, Mrs. A. Lamb, Mrs. Warren Jones, Howard Covey, Mr. and Mrs. Charles Hayes and Glen Crouch.

CLOSED CAMPAIGN AT PLEASANT PLAINS

Searcy Made Address There Saturday Night—Charges Close Alliance Between Other Candidates For Senate.

Pleasant Plains, November 4.—Earl B. Searcy, Republican nominee and candidate for the State Senate from this district, closed his speaking campaign tonight in a meeting here. In characteristic fashion, he has spoken frankly on occasion in the campaign but so far as his friends have been able to learn, he has kept his post-primary pledge to do his share toward keeping the campaign this fall clean.

In his closing talk of the campaign, Mr. Searcy alluded with surprise to the divided aspect which his opposition has taken, but declared that he was ready and willing to let his case rest with the voters of this district.

"If I receive a plurality of the votes cast," said Searcy, "I shall consider that I am wanted for the senate. If not, my hat will be off to the winner. I shall stand ready to help him in any manner possible. My loyal interest in this district, and the splendid citizens who comprise it will not be dampened by any mere matter of an election defeat."

Discussing eleventh hour developments in the campaign, Mr. Searcy said:

"I was surprised a little, just before noon today to have handed me a marked ballot. It had come from an employee of the Illinois Commerce Commission, which as we know is a part of the Republican state administration. On this ballot, not the name of John A. Wheeler, but that of Lawrence E. Stone, the Democratic candidate, was marked. This ballot has gone forth for the instruction of such state employees as will heed its advice."

"Thus we have the spectacular picture, Wheeler, who is just closing his four years as a Republican senator, is being managed in this district by Democrats and ex-Democrats. He is telling his intimate Republican friends to vote for Stone. To the rank and file of the party, he is advising that voters vote for himself."

"My majority last April was 2,605. The election was fair, square and honest. If it had not been, Mr. Wheeler's friends would have contested. I am willing to take any chances on another voice of the voters of this district."

URGES COOPERATION IN RODENT ERADICATION

WASHINGTON.—(By the A. P.)—Damage by smaller predatory rodents on stockmen's ranges while not so spectacular as that of wolves, mountain lions and coyotes, is very considerable, and in some cases more than equals that of the predatory animals, according to Dr. A. K. Fisher, of the United States Biological Survey. There should be closer cooperation, particularly in the matter of appropriations, between the federal and State governments, so that the largest amount available from both sources may be obtained, he says.

The department of agriculture declares that if the prairie dog alone were exterminated over its entire range, which is economically possible, 4,000,000 more cattle and 4,000,000 more sheep could be raised on that area, because of the increase in the amount of forage.

Records of the Biological Survey, a branch of the Department, show that in Texas its hunters, co-operating with the state agencies, have killed about 20,000 predatory animals, aggregating a saving of more than \$2,700,000. Of the total of 17,000 wolves and coyotes captured, more than half had records as killers.

HULA IS LIBEL ON HAWAIIAN CUSTOMS

Honolulu, T. H.—Two ancient and forgotten laws on the statute books of Hawaii which still are effective could be invoked to suppress the hula-hula dance of Hawaii, which is usually performed by a grass-skirted woman, according to an announcement by territorial Attorney-General John A. Mathewman, in connection with recent efforts to abolish the hula exhibitions, now given mainly for the entertainment of tourists.

The announcement followed the adoption of a resolution by the Hawaiian Civic club, composed of leading Hawaiians, denouncing the hula, as a "libel upon the Hawaiian race and its customs."

Judge Mathewman said that the two laws which might be enforced against exhibitions had been on the statutes of the territory for many years—one since 1850 and the second since 1896, this having been adopted when Hawaii was a republic.

In connection with the campaign against the hula, Vaughan MacCaughy, territorial superintendent of schools, while addressing the Honolulu Ad Club, declared that the "so-called high society dancing which is seen at leading social events is more immoral than the hula."

Feeling Tense as Date Nears For Herrin Massacre Trials

By NEA Service. MARION, Ill., Nov. 4.—Subsurface excitement in Marion is at exploding point, the outwardly all is calm as the day of the "big trial" draws near.

Trial of the first of those accused of murder during the bloody Herrin mine massacre last June, is set for Nov. 8.

Altogether nearly 100 union miners and sympathizers are scheduled to face the court to answer various charges in connection with the massacre.

Charges of attempting to incite a capital-labor war out of the trials flow freely. Each side accuses the other of trying to make this an issue and each denies.

"This should be a public prosecution by public officials with public funds, but it is a private prosecution by public officials with private funds," declare the miners. They point to the fact that money for the prosecution was raised thru the Illinois Chamber of Commerce.

"Governor Small vetoed half the necessary appropriations for the attorney general's office," retorts the prosecution. "Without the aid of the chambers of commerce, we couldn't conduct the case. The defense is trying to raise a capital-labor dispute to belound the real causes of the trials."

Line Up Witnesses.

But back of maze of industrial prejudice, charges and counter-charges, intense local partisanship and other factors, the attorneys both sides have been zealously at work lining up their witnesses, preparing for one of the biggest court battles in the history of Illinois.

So thoroly is Williamson county being winnowed for witnesses that there is hardly a resident who has not been approached as to his knowledge, or who has not been brought into a partisan frame of mind thru hearing the case repeatedly discussed. Selection of a jury, it is conceded, will be a very long process, owing to the widespread discussion of the case.

While the trial will be held in Marion and the 8 union men arrested are held in the county jail here, actual conduct of the case has passed beyond the boundaries of Williamson county. Procedure will be in the hands of outsiders.

Men In Charge.

State's Attorney Delos Duty of Williamson county has a hand in the prosecution, but only as an assistant. Attorney General Brundage has appointed C. W. Middlekauff special assistant attorney general in charge of the case. He also secured the latter's leave of absence from his duties as assistant to U. S. Attorney General Daugherty to conduct the prosecution.

A. W. Kerr, chief counsel

The first of the Herrin massacre trials will be that for the murder of Howard Hoffman, mine guard, upper right. The Williamson county court house at Marion, upper left, will be scene of the trials, and Circuit Judge D. T. Hartwell, also shown, the presiding judge.

every way the securing of a fair, impartial trial.

Politics Enter. And here is where the political angle comes in again.

The day before the trials start, Melvin Thaxton and S. G. Storm, sheriff and deputy during the massacre, will go before the voters, Thaxton runs for treasurer and Storm for county clerk.

The Greater Marion Association insists their defeat is necessary to vindicate Marion.

It holds that Thaxton's actions at the time of the rioting were swayed by his desire to get the miners' votes, that Storm was delinquent in his duties; that George Galligan of Herrin, running for sheriff, is a half-brother of one of the indicted men. Their election means a biased jury.

But Thaxton and Storm have their champions, too. They say the men did their best under the circumstances, and that the present fight is merely an effort to capitalize Marion's outraged feelings for election of three Democrats in a strong Republican county.

Marion resents this. A desire for vindication is dominant. To prove it is not the lawless, rough town outsiders may believe it is, Marion has pledged itself to aid in

American Legion's Statement on Bonus

The sense of justice of Illinois voters is appealed to in a final drive for approval of the soldiers' compensation act thru a statement just issued by the American Legion.

Cold, hard statistics, compiled by Roy G. Swindell, head of the service department of the Legion, tell a story of what passage of the act will mean to thousands of men who have suffered battle wounds or have become ill by reason of their military service.

"We are doing all we can for every service man," said Mr. Swindell, "but approval of the soldiers' adjusted compensation act will do something for the veteran that we can't do. It will give him his bonus and greatly needed financial aid. I have picked at random a half dozen cases, showing where a bonus will help."

How Vets are Faring.

"Take the case of Harold Carlson. Carlson was a member of a headquarters company in an ordnance detachment. Thru his military service he contracted tuberculosis. The government pays him \$3.50. He can only do light work. He has a wife and family. Do the people of Illinois want him to have a bonus?"

"Consider John Boulo of Peoria who at the age of 54 years was still patriotic and went into the navy in 1917. He is ill as a result of his service and has been since he was relieved from duty in 1919. He has been absolutely laid up. He has a wife and three children under 15. The government pays him \$25 a month now, but until recently was only paying him \$10. He can't work. His wife has worked in the field and taken in washing to earn money. Do the people of Illinois want Boulo to have a bonus?"

"And then there is Charles J. Vit, a Chicago boy. He is afflicted with a nervous disability and has been a wreck and unable to resume his pre-war occupation. His entire monthly income is represented by a \$13.50 compensation check. A short time ago he would have been evicted from his home had not arrangements been made for his relief. Do the people of Illinois want Vit to have a bonus?"

Marne Hero in Debt.

"Also Rawleigh Brown of Newton, a machine gunner in the 17th Battalion. Brown contracted tuberculosis in the service. He can't do heavy work. He's drawing compensation now, but he nearly starved to death first. He and his wife and child were about to be evicted and sent to the county poor farm, when assistance was obtained for them. He has suffered fearfully and is deeply in debt. Do the people of Illinois want him to have a bonus?"

"And L. copold, Graefenecker, who was gassed and received a shrapnel wound in his hand which is still infected and necessitates an amputation. He received his wounds in the second battle of the Marne. He's drawing \$16 a month compensation, but he's in debt, and facing further expenditures. Do the people of Illinois want him to have a bonus?"

"People may say the government ought to take care of these men. Certainly it should. But, it doesn't. Would anyone call a \$10 or a \$25 a month check taking care of such cases as I have mentioned? I guess not."

4,327 Thru Hospitals.

There has been 4,327 pass thru the hospitals in Illinois. These men of course receive free treatment, but they don't all get compensation.

"The cases cited are a mighty small percentage of the cases handled. There are hundreds and hundreds just like them. Do the voters of the state want it, or will they vote no on the adjusted compensation ballot or, worse yet, show their indifference by failing to vote at all?"

"We think not. We think Illinois will show her appreciation November 7 at the ballot box."

ILLINOIS VOTERS HAVE BIG JOB NEXT TUESDAY

Select Congressman, two State Officers and Legislative Men in Several Districts—Also Have Vote on Special Questions.

CHICAGO.—Illinois voters will elect their congressmen for the next two years; pick a state treasurer, state superintendent of public instruction; trustees of Illinois university; state senators in the odd numbered districts, state representative in all districts and state central committee members of the various parties.

A soldier's bonus bill referendum and a wet and dry referendum are also on the ballot, the latter being a proposal by the wets to restore beer and light wines.

Four political organizations have tickets in the field, Republican, Democratic, Socialist and Farmer-Labor parties.

The polls will be open at 6 a. m. and close at 5 p. m.

Chief interest is centered in the congressional races with control of the lower house of congress at stake, and in the legislative contests, where the fight is being waged between the friends and enemies of Gov. Len Small's administration.

One woman is entered in the congressional fight, Mrs. Winnifred Mason Huch of Chicago, daughter of the late William E. Mason, being the Republican candidate to fill the unexpired term of her father.

All of the present Illinois congressmen but four are candidates for re-election. Two of the four are "Uncle Joe" Cannon of Danville, and William A. Rodenburg of East St. Louis, are retiring voluntarily. The other two defeated in the Republican primaries—Ira C. Copley of Aurora, losing to Frank R. Reid, his fellow-townsmen, and Clifford Ireland of Peoria being defeated by William E. Hull, of the same city. Both Copley and Ireland are drys, and the liquor issue figured prominently in the campaigns against them.

Of the Republican candidates for state senator in the odd numbered districts, thirteen are generally credited as being favorable to Gov. Small, eleven are classed as anti-administration, and one or two others are in the doubtful class.

Twenty-five of the candidates for state representative are listed by the governor's opponents as being favorable to him, while they assert some fifty are opposed to his administration policies, and about twenty are in the doubtful class.

PERSHING STATUE TO BE UNVEILED

San Francisco Will Have Ceremony on Armistice Day—Was Presented to City By Dr. Morris Herzstein.

SAN FRANCISCO.—On Armistice Day, November 11, a heroic statue of General Pershing, picturing him as if watching troops in battle, will be unveiled in the Golden Gate Park here.

The statue is a gift to the city of San Francisco by Dr. Morris Herzstein, a local physician. It was done by an old friend of the doctor, Haig Patigan, noted San Francisco sculptor.

Eight feet in height, the figure is of gilt bronze and stands on a pedestal of silver granite. The pedestal is five feet high. It represents the general in field uniform, standing squarely and looking forward, both face and figure animated with the expression of alertness and energy.

On the face of the pedestal is the inscription: "In tribute to General Pershing and the victorious and her co-belligerents during the world war, 1914-1918, presented by Dr. Morris Herzstein, 1922."

Dr. Herzstein conceived the idea of the statue after he had heard from General Pershing himself the story of the American expeditionary force and saw with his own eyes the fields where that force had won imperishable glory. The doctor toured the battlefields with Representative Julius Kahn of San Francisco immediately after the armistice and spent some time as the guest of General Pershing.

Patigan has worked on the statue for more than two years, and at the request of the doctor, has kept the plans a secret.

ADDRESS IS GIVEN BY EDWARD ROSS

Professor of Sociology at the University of Wisconsin Delivered an Interesting Address to the Women of Jacksonville Yesterday Afternoon—Mrs. Grout Presided

"Woman in a Man Made World," was the theme of an address by Professor Edward Ross, professor of Sociology at the University of Wisconsin and author of note, at a meeting of the Jacksonville Branch of the American Association of University Women at Illinois Woman's College Saturday afternoon. The speaker is a man of prominence in the realm of social and economic world and gave an address interesting, comprehensive and educational in its scope. Mrs. J. C. Grout of Winchester, president of the organization introduced Professor Ross with a few well chosen remarks.

Professor Ross began his talk by speaking of the current of ideas as composed chiefly of that which comes to the public through sermons, university lectures, legal arguments and decisions and newspaper publications. He pointed out that 90 percent of the current ideas are from the minds of men in spite of the fact that within the last thirty years there has been a great admission of women into intellectual circles. Ever since the founding of the professions, hundreds of years ago, this has been a man made world in so far as intellectual currents of thought are concerned.

It was pointed out that there is nothing to prevent the brightest boys from entering into professional and other intellectual pursuits, in fact there is every inducement for them to do so. If all the brightest women of the generation gave themselves to the professions the result would be that all the children of the next generation would be born of the lower strata of society.

Difference in Equipment
It is difficult for a woman to

keep up the intellectual influences and attainments of which she is capable if she raises a family. The average American family of four children takes sixteen of the best years of a woman's life away as far as her ability to enter actively into intellectual circles is concerned.

"The difference in the instinctive equipment of the sexes makes a decided difference in the current of ideas," said Dr. Ross. Women do not find themselves at home in a mental world where all the thoughts are tinged with masculine ideas. Men would be greatly dissatisfied if nine tenths of all that they read and heard came from feminine minds and yet the reverse of this is exactly what the women must meet.

The speaker then spoke of the ways in which the stream of ideas bears the imprint of male psychology. The instinct of pugnacity is much more marked in the male sex than in the female. The games most popular with men are those that involve hitting something. The golden moment in these games is "the swat" and a woman fails to find the same thrill in the swat that a man finds. In the female the instinct of life preservation is decidedly more developed than in the male. Woman is more bent on preserving not only her own life but the lives of other beings. Men are more reckless and their instincts of destructions more marked.

A working woman is almost never known to gamble away her wages but a man is frequently seen gambling away money which he has worked hard to secure. In China there are more men who smoke opium than there are women and in the United States there are more men addicted to the use of alcohol than there are women. Men are more reckless in the indulgence of their appetites than are women and this, according to Dr. Ross, is not because the nervous disposition of men and women toward the attraction of stimulants is not equal. Rather, says Dr. Ross, it is because women have greater self control than have men.

Woman's Moral Level Highest
The moral level of American women is higher than that of American men, but the difference between the two is less marked here than in other countries because American men came more nearly up to a standard of ideals. The married woman fulfills her vows better than the man but the men in the United States fulfill their marital vows better than the men of other countries. In the loathsome practice of prostitution there are more men implicated than there are women but the speaker showed that the number of women of normal mentality who practice this vice is very small.

In the lower species of life the love of self adornment is more pronounced in the male than in the female. In human kind it has come to be the other way, women are the fashion plates and the gorgeous dresses. All thru the lower kingdom there is no such thing as the support of the female by the male. In the later evolution of society marriage, more than a mating means the capturing of a means of support for life. The sphere of domestic industry is continually narrowing and the economic problem of the household has come to be the man's and not the woman's. Woman's work in the home now is the raising of children, cooking and care of the house whereas in former days she also did the knitting, weaving, raising of grains, etc.

The Marriage Problem
A proposal of marriage now is really, according to Dr. Ross, the question "Will you permit me to pay your bills the rest of your life." Being a spinster is becoming easier all the time as the sphere of self support for women is enlarging. Also being a married woman is getting easier and in Dr. Ross' opinion marriage is getting easier at a faster rate of speed than staying single. It is owing to this fact that the women of every class are paying more attention to dress for the purpose of making themselves attractive to men. Young women are not only dedicating all their money and energies to being attractive, but they are getting results. More Americans are married than are the peoples of any other nation. The girls are so charming that in spite of the fact that marriage is more of a burden than ever before, more men are marrying than has ever been the case before.

Many of the institutions and customs that the men which women take over, now that they are an integral part of civic life, are warped with male psychology. The instinct of domination is shown in our political system and as women become actively identified with these systems the men will try to "put over" these systems on the women. It is hoped that the women will prove true to their instincts and use their

influence in remedying some of the present day evils.

The culture that has come to us from generations is more or less saturated with the masculine psychology and the men are insisting that the women take it as it is. Dr. Ross urged the women to get by themselves, away from men and discuss the institutions and policies of the day. "Be skeptical." Bring reasoning and common sense to the problems of the world and don't accept things without thought.

Got in touch with the men who are trying to develop a scientific, unbiased approach to these subjects. If you wish to efface yourselves just hook up with the particular political party and be true to it. There is no better way of becoming a zero. But if you wish to have political weight be non partisan, free to form your own opinions, and men, as well as women will have a profound respect for you."

GOOD BUYING OF
THE COPPER SHARES

NEW YORK, Nov. 4.—Profit-
taking by traders who had bought
stocks during the recent reaction
temporarily halted the upward
movement of prices in today's
stock market but there was un-
usually good buying of the copper
shares, which have been lagging
behind the rest of the list.

There were no special develop-
ments in the copper trade to ac-
count for the rise. It is a matter
of almost general knowledge that
the statistical position of the in-
dustry has been steadily improv-
ing in that the huge surplus of
copper on hand after the war has
been largely reduced and there
has been a gradual increase in
the domestic demand for the
product. The price of the metal,
due to the flood of imports, from
Chile and other South American
countries has held around 14c a
pound.

All the active copper shares
made good gains, the leaders
being Utah, Inspiration and fed-
eral mining and smelting prefer-
red, each up 2 1/2 points.

Merchandising shares were
strong in reflection of increased
sales and expectation of heavy
holiday trade.

Realizing sales were directed
principally against the specula-
tive favorites, Studebaker, the
principal target, declining 2 1/2
points. Chandler and Baldwin of-
fered better resistance while
Mexican Petroleum, which was
down four points at one time, re-
covered all but 1 1/2. Standard Oil
shares improved, California rising
1 1/2 points and New Jersey 1.

Railroad shares, with few ex-
ceptions lost ground.

Total sales were 415,000
shares.
Foreign exchange rates were
irregular with most changes of a
nominal character. Demand ster-
ling sold just under \$4.46 and
franc checks were quoted just
above 6.85 cents.

The clearing house statement
showed a decrease of \$14,180,000
in loans, discounts and invest-
ments, a decrease of \$57,435,000
in the reserve of member banks in
the federal reserve bank and an
increase of \$447,000 in the re-
serve in the bank's own vaults.
Net demand deposits decreased
\$14,562,000.
Aggregate reserve totaled
\$509,975,000, making deficit on
reserve of \$4,956,240 as compared
with an excess reserve of \$51-
176,020 last week.

CASH GRAIN
REPORT

CHICAGO, Nov. 4.—Wheat in
the cash market closed 3c easier
today. Premiums were firm for
contract grades of winter wheat
and a trifle easier for off grades.
Northern and Dark Northern
unchanged. Cash sales were 70-
000 bushels to millers. The Greek
order for 1,500,000 bushels of
wheat placed and the seaboard
said that there was additional
business done in Manitoba.

Corn was weak during the ses-
sion with prices 1 1/2c easier, but
closed 1/2c lower. Premiums
were easier on all grades. Cash
sales were 100,000 bushels in-
cluding 60,000 bushels to ex-
porters.

Cash sales were 60,000 bushels
including 30,000 bushels to ex-
porters.

Cars inspected: Wheat, 30;
Corn, 202; Oats, 109.

PRODUCE MARKET REVIEW

A larger supply of live poultry
reached the New York market
this week, resulting in the lowest
selling prices for live poultry that
have been reported for some
time. On the last day of October
the official quotations were:

Fowl, average heavy, via
freight, 22 cents.
Fowl, medium heavy via
freight, 20 cents.

Chickens, general run, via
freight, 17 cents.

Receipts of dressed poultry also
were larger, resulting in lower
prices and weaker tone at the
close.

The butter market advanced
during the week, due to lighter
receipts and good consumptive de-
mand. Prices for butter fat are
generally higher thruout the pro-
ducing sections.

The problem of the manufac-
turer is to secure better cream, as
the big demand is for the top
grades. Greater care of the
cream and quicker marketing,
not less than twice weekly during
the winter, will improve the
quality of butter, and will tend
to increase butter-fat prices.

The marks on fresh eggs is
closing firm with good demand
for fine fresh stock. Receipts are
very light, and the bulk of the
trade are using storage stocks.

A better feeling is noted in
connection with the market on
storage eggs. Withdrawals from
storage are running a little
heavier than the previous week.
There is still a large surplus to be
marketed in order to reduce
stocks to a safe basis by Jan. 1.

WHEAT RECOVERED
SOME LOST GROUND

CHICAGO, Nov. 4.—Wheat re-
covered some of Friday's lost
ground in the final half hour of
the short session today on week-
end covering induced by advices
of resumed buying for export.
Corn and oats followed wheat for
the most part, altho the latter
did not respond as readily as
bullish sentiment. Closing prices
were 1/2c down to 1 1/2c up one wheat,
with December \$1.15 1/2 to \$1.15 3/4
and May \$1.14 1/2 to \$1.14 3/4; 1 to 1 1/2c
up on corn and unchanged to 1 1/2c
on oats.

Provisions finished 7 cents to
20 cents higher.

Wheat was without leadership
for some time following the
steady opening and it was any-
body's market until insistent re-
ports of foreign inquiry gave the
bulls a slight advantage about
the middle of the session. Cash
prices were lower with the basis
about unchanged and the first
bulges in futures brought forth
adequate offerings.

New York reported a million and a
half bushels of wheat ordered for
Greece and scattered sales of
Manitoba. The declines in fore-
ign markets offset the Athens
order to some extent but in the
last half hour the shorts came in
for evening up buying and pushed
all deliveries for sharp rallies.

The market sentiment is sharply
divided on the fundamental posi-
tion of wheat, with about equal
aggressiveness on either side.

Fluctuations in corn were with-
in limits than in wheat with fair
support developing on the break,
but in the main the wheat move-
ments ruled also in corn where
the mixed feeling quickly check-
ed movements either way on the
bulk of the trade.

Provisions sold up on com-
mission house buying, steady, hog
markets a firm cash demand and
reports of a brighter outlook for
export sales.

FEDERAL TAXES IN THIS
DISTRICT REDUCED

Huge Savings Under New U. S.
Law Indicates Cancellations
and Decreases Affecting In-
come and Other Assessments
Reach Big Figure.

Reductions in federal taxes,
which are effective this year will
save taxpayers on this Springfield
District the enormous sum of \$10-
495,000 according to a special
survey of the cancellations and
decreases in tax rates provided by
the Internal Revenue Act of 1921
completed yesterday by Internal
Revenue Collector, George W.
Schwaner.

The reduction in taxes for
1922 is approximately as follows:
Income \$9,700,000
Transportation 440,000
Sales and Luxury tax 265,000

While the transportation, sales
and luxury tax cancellations be-
came effective January 1 of this
year, the income tax reduction
covers the years 1921, 1922 and
hereafter.

One Big Feature
An outstanding feature of the
report is the fact that during the
four years the transportation tax
was operative, the Springfield Dis-
trict paid Uncle Sam \$1,194,000
in transportation tax divided as
follows:

Freight \$623,000
Passenger 550,000
Express 14,000
Pullman Berth 7,000

This means that in the last four
years approximately \$27,860,000
was expended in the Springfield
District for transportation charges
alone. Of this amount \$20-
700,000 was for freight charges,
\$280,000 for express, \$6,800,000
for passenger fares, and \$80,000
for Pullman berths. This does
not include transportation charges
that were prepaid in other dis-
tricts.

SALE OF REAL ESTATE
Edward Keating, adminis-
trator of the estate of Kate
Ryan, will sell lots 16 and
17, Mathers & VanWinkle's
addition to the city of Jack-
sonville at the south door of
the court house Saturday,
November 11 at 2 p. m.

TAX REDUCTIONS
More than 100,000 taxpayers
were benefitted by the income tax
reduction of \$9,700,000.00. This
is accounted for on account of in-
creased exemptions allowed to
heads of families and for depen-
dents. The exemption for mar-
ried persons whose income is not
more than \$5,000 is now \$2,500
instead of \$2,000, and the exemp-
tion for dependents in all cases is
\$400 instead of \$200, which, in
the case of a married couple with
one dependent, means a tax sav-
ing of \$28.00.

The survey stresses the fact
that the relief afforded by the de-
creased taxation affects every per-
son in the Springfield District
who travels, pays freight, sends
an express package, buys a Pull-
man berth, takes a drink of soda
water, or who has a taxable in-
come. In other words, the relief
afforded reaches all classes.

Altho the Springfield office
faces a tax reduction of more than
\$10,000,000 annually, Collector
Schwaner believes that the total
collections for the coming fiscal
year will be materially affected.
He predicts that the marked ex-
pansion in every class of business
in the Springfield District will
furnish sufficient new taxes to
easily absorb the \$10,000,000
wiped out by the last revenue act.

LOWDEN DISCUSSES TIMBER TAXATION

Suggests That Tax for Timber Sold Be Used for Forestry Work—Would Give Illinois Timber for Own Use.

Springfield, Ill.—(By The A. P.)—Taxation of the timber sold from land in Illinois devoted to forestry instead of a direct tax on such land would be within the power of the state legislature if the proposed new constitution passes. Former Governor Frank O. Lowden suggested in commenting on the revenue features of the new basic law. Such a method, he said, would in time probably give Illinois enough timber for its own needs.

The legislature is authorized by the new constitution under proper conditions, to exempt lands devoted to forestry from taxation, or to classify them them therefor, he explained. He expressed the belief the legislature could provide means for reforestation of the state.

"Under this section," said Mr. Lowden, "it would be possible for the legislature to provide in lieu of direct taxation upon bush lands, that when the timber grown thereon had matured, the owner should pay to the state some portion of the proceeds realized from the sale of such timber. This would encourage forestry in Illinois."

At present there are a few acres upon almost every farm which now produce nothing, but which are capable of raising trees of some kind. But the owner cannot be expected to plant a crop which will not be harvested for many years, paying taxes all the time. No doubt the assessor usually takes the character of this land into account in making assessments, and so the state receives practically no revenue from such land. If, however, the legislature were to exempt this land from taxation upon condition that it were planted to trees, the owner to pay taxes to the state only when he marketed these trees, it is believed that reforestation would proceed rapidly.

No one would suffer from this and in a half century from now both the owners of these worthless areas and the state would derive a substantial revenue from them. It is altogether probable that if the waste areas of Illinois were devoted to forestry, Illinois, in seventy-five or a hundred years, would be producing timber for all of its own needs.

FALLEN LEAVES

Upon the bench where summer hours
We sat together, You and I,
The leaves of autumn fall in showers,
And falling idly, there they lie.

How seasons come, and seasons go!
How kisses dear and love so hot,
Within a restless year or so
Should fall like leaves and be forgot!

The world jogs on, yet I must gaze
Back at the scattered leaves that lie
Upon the bench where summer days
We sat together, You and I.

LEAF-AGE

What pretty cheeks the leaves display,
When autumn styles come in their turn;
But tho you watched them night and day,
The secret you would never learn.

While young, the leaves are never bold
With lip-stick, rouge, or powder-puff;
But when they feel they're growing old,
They paint—and that is soon enough.

IMPORTANT MEETING HELD AT FARM BUREAU

Executive Committee in Regular Monthly Meeting—Annual Meeting to Be Held December 14.

The regular monthly meeting of the executive committee of the farm bureau was held in the farm bureau office at 10 o'clock, Saturday with Charles S. Black, Lester A. Reed, H. E. Kitner, T. R. Cain, George Deitrick, J. W. Arnold, W. H. Crum, C. R. Gibson present. F. H. Jewsbury, township chairman from township 15-11 was also present. After reading the minutes of the previous meeting, the farm adviser reported numerous poultry cullings held the past month, the successful reorganization of the Jacksonville Livestock Shipping Association so that it could take care of points not yet provided with local associations, of attendance at several community meetings of one meeting of the Advisory Council, at which the proposed method of electing officers of the farm bureau was discussed and the result of the farm advisers conference at Springfield.

The executive committee voted December 14th as their first choice of date for an annual meeting. W. H. Crum was appointed a committee to arrange for either a duck or turkey dinner on that day or one near it.

The members of the executive committee voted to send every farm bureau member a list of the farm bureau members with instructions to nominate some one for president, vice president, secretary-treasurer and two members of the executive committee. They also voted to have the president appoint five men not members of the executive committee as a committee to have charge of making an official ballot from the nominations sent in. This official ballot will be mailed to every farm bureau member. A member will be given an opportunity to vote personally at the farm bureau office by the Australian ballot system on the day of the annual meeting between 10 and 4 o'clock or if unable to come to vote by mail. There will be no voting at the annual dinner.

The ruling of Sec. Wallace that farm bureaus could not directly engage in commercial activities if receiving Smith-Lever fund was also read.

The committee unanimously voted to endorse the new state Constitution to be voted on December 12th.

A communication was read showing the U. S. Grain Growers Inc., had established a sales agency at Minneapolis was in a position to handle fifteen million bushels of grain.

The bills for the month including the salaries, totaling \$523.05 were audited and ordered paid. Every member was furnished

with a financial statement showing the comparative statement of Income and Expense of the farm bureau from Dec. 1st 1921 to date.

George Deitrick was appointed special delegate to attend the hearing of the I. A. A. before the Illinois Tax Commission at the St. Nicholas Hotel, Springfield on November 10.

This season men are demanding the rough finished hats. The better qualities and styles are shown by FRANK BYRNS Hat Store.

Mr. and Mrs. Lee Meller were listed among callers in Jacksonville from White Hall.

PERPETUATE MEMORY OF
WILL CARLETON, POET

HILLSDALE, Mich.—(By The
A. P.)—Further steps to make
"Over the Hill to the Poorhouse,"
late Will Carleton, Michigan's
beloved poet, were taken here at
the annual business meeting of
the Will Carleton Memorial As-
sociation. It was decided to
place next year, during fitting
ceremonies, a boulder on the site
of "the old poor house," located
near Mr. Carleton's home a short
distance from Hudson, Mich., and
which the poet described in his
"Over the Hill to the Poorhouse."
A similar boulder was placed a
year ago on the old hamstead
where the poet was born. The
boulder marking the spot was
one upon which Carleton often
had played as a boy.

Efforts to make the life and
works of the poet better known
to Michigan school children in
the future also will be made.
"Will Carleton Day" annually is
celebrated in Michigan schools
by legislative enactment, October
21 being set apart because it is
the anniversary of the poet's
birth.

Report of Annual State W. C. T. U. Convention

The 49th annual state convention of the Illinois W. C. T. U., was held at the First M. E. church in Decatur beginning Tuesday, Oct. 17, and closing Friday afternoon, Oct. 20. Miss Helen Hood, state president, was in the chair with all the state officers in their places. The main auditorium of the church was very prettily decorated for the occasion.

There were between 300 and 400 women present. Of these, 244 were voting delegates, 64 of which were county presidents. There are 400 unions in Illinois, 30 of which are in Cook county. One union alone has 705 members. There was a large delegation from Cook county present.

At the executive committee meetings held Tuesday afternoon and evening several recommendations were made, among which was one which caused a great deal of criticism, when the state president recommended that at the election Nov. 7 the small ballot in regard to wine and beer be returned unmarked to the judge.

Another recommendation was that we do not give out of our own treasury to any other organization. It also recommended that we co-operate with all other organizations which are for the furtherance of civic righteousness.

Believing that greater results would be obtained for the enforcement of the Volstead Act, the convention put itself on record as asking Senator McCormick and Senator McKinley to use their influence in securing better enforcement officials. The question was then asked, why it was that the wine and beer proposition was allowed to come upon the ballot in this state, when some other states have refused it. The president said that the blame lay between Attorney General Brundage and Secretary of State Emmerson.

It was recommended that the Watch Tower Bulletin be sent to each local union in sufficient number to supply each member. Wednesday afternoon the county presidents told of their work. The state president, Miss Hood, gave her address Wednesday morning, which was very inspiring and encouraging. She said "Let every Christian man and woman take their religion to the polls and work it in their ballots by voting for dry candidates."

The president of Macon county

presented Miss Hood with a basket of beautiful roses. The state treasurer, Mrs. Goodman, reported that last year there were 14,605 members in the state and this year there are 15,339 members, making a gain of 734, with 20 dues sent in after the state books closed.

An appropriation of \$600 was made for organization purposes. After several fine musical selections by some of the faculty of Millikin University the Hon. C. B. T. Moore was introduced and spoke on the proposed new constitution, on which we will vote Dec. 12.

The annual dinner was given Wednesday evening by the ladies of the Christian church. Thursday morning the election of officers was held. Two hundred and forty-four votes were cast. Miss Helen Hood was re-elected state president; Mrs. Etta R. Edwards vice president; Miss Ephra Marshall, corresponding secretary; Mrs. L. Belle Goodman, treasurer; Mrs. Rosetta Trabue, recording secretary.

A young soldier representing the American Legion made an urgent request that we vote yes on the soldiers' bonus bill, which will be presented on a small ballot at the Nov. 7 election. This was greeted with great applause.

Thursday afternoon came the contest of departments. The contest was decided by a general vote in favor of department B, child welfare.

We were instructed by the chairman not to vote for Gorman or Murphy in the coming election, as both are wet men. Mr. Davis, representing Mr. Gregory, state enforcement officer, spoke on the difficulties of enforcing the 18th amendment.

Marion county reported the capture of a jug of white mule by their union. Elgin requested that the state convention next year be held there. Freeport also asked for it, and it was decided in favor of the latter.

On Thursday evening the Decatur union furnished cars and drove us over the beautiful city and afterwards served us with tea at the Art institute. The 49th state convention closed on Friday afternoon, these present expressing the opinion that it was one of the best held in years.

MRS. EVA HYDE, Meredosia, Ill.
President Morgan County W. C. T. U.

FARM BUREAU NOTES

European Corn Borer—Altho this insect has not yet invaded this part of the corn belt, W. P. Flint, state entomologist, is confident that in a few years it will be here. In the meantime he wants advisers to be on the look out for it and to know the control measures used. C. P. Oathout of Champaign county is the only adviser in the state who has actually visited the area where the borers had been at work. We quote at length from a personal letter from Mr. Oathout:

On September 12 several Illinois men made a trip to the European corn borer infested area around St. Thomas, Ontario. Some of the corn fields were very badly infested and the damage was great, the fields showing the appearance of having been struck by a very bad hail storm, except that the leaves were not shredded. Not a stalk could be found and not a shank nor an ear that had not been damaged by the worms. Their work in the stalks caused them to break in the joints in many cases; with the result that the ears were shriveled and mounded and their work in the ears caused damage similar to that of the corn ear worm but very much worse, as these worms tunnel the cobs as well as doing damage to the grain.

We tried to estimate the damage done in these fields and found it difficult. It looked as if the yield had probably been decreased fifty per cent, while the corn that was there was so badly damaged that it could not be stored. Sweet corn for early market is no longer grown.

The remedies used are late planting, planting a trap crop, and burning stalks. When the moths emerge they do not lay eggs to any great extent on corn that is less than a foot high. A field planted May 27th was very badly infested, while one adjoining it planted on June 2 was very slightly infested. The trap crop consists of an early planted strip of corn which can be destroyed when it has become heavily infested. As the larvae live thru the winter in the corn stalks many can be destroyed by burning.

The spread of this insect is quite rapid as marked moths have been found twenty-one miles from the place where they were liberated.

We tried to form an estimate of what it will mean to Illinois when this pest reaches us as there seems no doubt that it will in time. The probability is that the remedies used in Canada cannot be used here, while we will probably have two here as in Massachusetts. In Canada they attack nothing but corn. In Massachusetts they attack almost everything, all kinds of weeds being heavily infested. So the only conclusion that we could come to was that it will indeed be a great calamity when the borer gets well established here.

It is to be regretted that our farm adviser made the trip, as we should be able here to ill-

noise to identify this pest with a considerable degree of certainty the moment it appears in any county. We should always be constantly on the lookout for it. A slight infestation might by very vigorous methods be stamped out and thus put off the time when infestation becomes general."

READ MORE BOOKS

New book of travel at the Public Library.

O'Brien, Frederick. Atolls of the Sun. This is another fine large volume of the South Seas that will no doubt prove as interesting as the former ones by the same author. He wrote also Mystic Isles of the South Seas and White Shadows in the South Seas. Having recently returned from his third visit to the lonely islands of the line, Mr. O'Brien now writes his third book on the beautiful lands and the fascinating peoples of the far south seas. This new one is Atolls of the Sun. It has in rich measure all those elements that made his White Shadows and Mystic Isles such extraordinary successes. Atolls of the Sun is not only an absorbing record of travel and a thrilling narrative of adventure; it is also a book of humor, of kindly human philosophy, of striking dramatic situations enough to endow a dozen novels. It is all presented in an alluringly musical prose which has caught color and cadence from the people and places of that joyous Polynesia so loved by the author. This new book deals with those blazing coral wreaths upon the equatorial Pacific known as the dangerous archipelago, which are among the most amazing habitations of man. Mr. O'Brien spent months among these people, taking part in their daily lives. He tells of further adventures in the Marquesa Island, and the reader meets again those unforgettable native figures—Exploding Eggs, Vanquished Often, Daughter of the Pigeon, Seventh Man who Wallows in the Mire, and many others. This book is very readable and will be much enjoyed by all who love travel. Get it at the Public Library.
